LETTER OF TRANSMITTAL

DEPARTMENT OF COMMERCE,
BUREAU OF THE CENSUS,
Washington, D.C., June 20, 1934.

SIR: I transmit herewith a decennial report on public indebtedness, valuation, taxation, and expenditures, covering the fiscal year 1932. The statistics presented relate to the revenue receipts, governmental-cost payments, public debt, and assessed valuations and tax levies, for all divisions of government, and were compiled in conformity with the requirements of the act of Congress approved March 3, 1899, and acts amendatory thereto. Previous reports of this character have been published under the title, "Wealth, Public Debt, and Taxation."

The collection and compilation of these statistics and the preparation of this volume were under the supervision of Starke M. Grogan, chief statistician for financial statistics of States and cities, Lemuel A. Carruthers, assistant chief statistician, and George B. Wetzel.

Respectfully,

WILLIAM LANE AUSTIN,
Director of the Census.

Hon. DANIEL C. ROPER,
Secretary of Commerce.

FINANCIAL STATISTICS OF STATE AND LOCAL GOVERNMENTS: 1932

GENERAL INTRODUCTION

Scope of report.—This volume presents the complete results of the decennial inquiry concerning public indebtedness, valuation, taxation, and expenditures. The statistics cover the financial operations of all divisions of government, and were collected in conformity with the act of Congress, approved March 3, 1899, and acts amendatory thereto. Similar statistics, also authorized by act of Congress, have been collected decennially in more or less detail since 1850. This census, however, is the first complete one, covering all subjects included in this investigation for States and all minor civil divisions of States.

The statistics herein presented relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies for the 48 State governments and the District of Columbia, the 3,062 counties, the 16,442 cities, towns, villages, and boroughs, the 128,548 school districts, the 19,978 townships,[1] and the 14,572 other civil divisions, or a total of 182,651 political units that have power to levy taxes or incur debt. The data were compiled from reports on file in the various State offices, and from reports secured by local agents and through correspondence.

The results of this decennial census were first published in a series of State reports, each entitled "Financial statistics of State and local governments." These reports, which give the financial transactions of the government of each State, and of the counties and minor civil divisions, are assembled and bound together to make the present volume. A United States summary, in which the statistics for the several States and the District of Columbia are brought together, is also contained in this volume.

Fiscal year.—The fiscal year for this report is that ending on a date between July 1, 1931, and June 30, 1932.

Population.—The population used in computing the per capita figures for the aggregate of all civil divisions was the estimated population of the State on January 1, 1932; for the State governments and for the governments of those cities, towns, villages, and boroughs which had a population of 30,000 and over in 1930, it was the estimated population as of the middle of the fiscal year reported; for the county governments, and for cities, towns, villages, and boroughs which had a population of 8,000 to 30,000, it was the estimated population as of January 1, 1932; and for the cities, towns, villages, and boroughs of less than 8,000, and likewise for any county or city, town, village, or borough whose population decreased from 1920–30, it was the population as enumerated on April 1, 1930. The population used in computing the per capita figures for the National Government was the estimated population of Continental United States on January 1, 1933 (125,197,000).

General tables.—In the general tables of this report all amounts are expressed in thousands, and blank spaces in the columns may indicate either that there were no data for such columns or that the amounts reported were less than $500 and thus eliminated in tabulation. In some instances, however, it is probable that an incomplete segregation of figures secured did not permit of a proper classification.

[1] Included with townships are the town governments having similar functions, such as those in New York, Wisconsin, and certain New England States.

DEFINITION OF TERMS

REVENUE RECEIPTS

Revenue receipts include all receipts that do not increase liabilities or decrease assets, and are exclusive of the receipts from the proceeds of bond issues, revenue loans, or other debt obligations, transfers between funds and accounts, refunds, and similar items. The one duplication of revenue receipts in the tables of this report, taking the State and all subdivisions of the State as a whole, is that reported in the column "subventions and grants," which includes such items as subventions to the State from the Federal Government for highways and other purposes, to minor civil divisions from the State for education, and other amounts contributed by one civil division to another for specific purposes. The revenue receipts presented were collected in accordance with the following instructions:

1. *General property taxes.*—Report all receipts from the direct ad valorem tax upon real and personal property. Include penalties and interest on delinquent taxes.

2. *Special taxes: a. Inheritance; b, Income; c, All other.*—Under *all other* include taxes levied at a fixed rate per dollar of a valuation other than an assessed valuation applied to all property, or levied at a specified amount per unit of measure, such as taxes on bank or other corporation stock, on valuation of insurance policies, and on mortgage registry.

3. *Poll taxes.*—Report receipts from per capita taxes, levied as specific amounts against persons or as ad valorem based upon valuation of polls or occupations.

4. *Licenses and permits.*—Report receipts from taxes upon business or business activities exacted, with or without the issue of licenses, by reason of the business itself or in proportion to its volume; receipts from motor-fuel taxes and motor-vehicle licenses; dog licenses; marriage licenses; and permits for various purposes, as building, plumbing. Receipts from permits issued by public-service enterprises should be reported as receipts of such enterprises.

5 *Special assessments.*—Report receipts from benefited property owners to meet sidewalk, paving, sewer, and street sprinkling or cleaning costs; also receipts from assessment certificates when issued against individual owners and not in the name of the civil division.

6. *Fines, forfeits, and escheats.*—Report receipts exacted as penalties for violation of law; penalties for non observance of contracts; receipts from disposal of property, the owners of which cannot be located; and from cancellation of long over-due debt obligations.

7. *Subventions and grants by other civil divisions.*—Report amounts contributed by another civil division as a free gift or subvention to assist in some specified governmental activity.

8. *Donations, gifts, and pension assessments.*—Report gratuitous contributions from private persons or corporations the principal or income of which can be expended for governmental uses, and amounts contributed by policemen, firemen, teachers, and other employees as dues or assessments, for establishment and maintenance of retirement funds.

9. *Highway privileges, rents, and interest.*—Report receipts from those having special privilege of using streets or roadways in providing some public service; for the privilege of vaults under the street, or stands on the sidewalk; amounts received from the rental of real property held for investment purposes; amounts received as interest on current deposits and on the assets of the various funds.

10. *Receipts of general departments.*—Report receipts from fees or charges for services, rents, and minor sales of the nine principal divisions of government enumerated under governmental-cost payments.

11. *Public-service enterprises.*—Report receipts from fees, charges, rents, and permits of those enterprises or departments of the civil division which furnish the public with some utility or service, such as water, electricity, or gas.

12. *All other revenue receipts.*—Report with brief description revenue receipts not covered by above classifications.

GOVERNMENTAL-COST PAYMENTS

The costs of the State government and of the political subdivisions include the costs of services employed, properties constructed, purchased, or rented, public improvements constructed, materials utilized, and interest on borrowed moneys. These costs are separable into three principal classes: (1) Payments for operation and maintenance; (2) interest charges on account of debt obligations; and (3) outlays for permanent acquisitions or improvements, which include payments for the purchase and improvement of land, the erection of new buildings, the extension of water-supply systems and other enterprises, the purchase of additional apparatus for fire departments, purchases to increase the collection of libraries, and payments on account of other acquisitions which add to the number and value of the permanent possessions of the several political units.

Governmental-cost payments are exclusive of payments on account of debt obligations, transfers between funds and accounts, refunds, and all agency transactions such as the collection of taxes by the counties for other political units. Such taxes are reported as a direct receipt by the political units for which collected.

Payments in the nature of apportionments, or subventions and grants to minor civil divisions, are reported as governmental costs of the political unit making the apportionment, and also appear as costs of the civil divisions receiving the grant, and to that extent such governmental-cost payments are reported in duplicate. The governmental-cost payments presented in this report were collected in accordance with the following instructions:

1. *General government.*—Report payments on account of legislative bodies; chief executives and executive heads or commissions, finance officers, as auditor, assessor, collector, or treasurer; legal department; judicial department, including coroner's court; administration expenses of engineer and public works, charter and public-utility commissions; elections; and general government buildings.

2. *Protection to person and property.*—Report payments on account of police and fire departments; police- and fire-alarm systems; militia and armories; fire and game wardens; register of deeds and mortgages; building, plumbing, wiring, and other inspection; examining engineers and plumbers; morgues; pounds; humane societies; and similar activities.

3. *Health and sanitation.*—Report payments on account of vital statistics; prevention and treatment of communicable diseases, including those for isolation hospitals; medical and dental work for school children; other conservation of child life; food regulation; sewers and sewage-disposal, refuse collection and disposal, including street cleaning; public convenience stations; indoor baths; and sanitary inspection.

4. *Highways.*—Report payments on account of roadways, sidewalks, bridges, abolition of grade crossings, street lighting, snow and ice removal, dust prevention, and waterways used as public highways

5. *Charities, hospitals, and corrections.*—Report payments on account of relief to all classes of poor, whether in or out of institutions; general hospitals and also those for the care of insane and feeble-minded; lodging houses; correctional institutions for adults and minors; and probation boards or officers.

6. *Schools.*—Report all payments on account of schools, including those for books and supplies furnished ree to pupils, and libraries for use of teachers and pupils only. Payments in connection with financial administration of schools; their legal business, elections, general promotion of health, and those in connection with correctional schools should be classified according to the functional activity for which payment was made.

7. *Libraries.*—Report payments on account of general libraries for the use of the public, even though under control of the board of education, and also payments to private library associations.

8. *Recreation.*—Report payments on account of all facilities for recreation both educational and general, including music, zoological collections, museums, art galleries, bathing beaches, golf links, playgrounds, parks, trees, and for such anniversaries as Fourth of July and Memorial Day.

9. *Miscellaneous.*—Report payments on account of pensions and gratuities to former employees or their dependents; aid to soldiers, sailors, and mothers; personal injury, administration of trusts and investments; judgments; losses; also payments that cannot be assigned to any specific classification; and those that cannot be distributed to the proper departments.

10. *Public-service enterprises.*—Include payments for operation, maintenance, purchase or construction, of water-supply systems, electric light and power systems, or any other enterprise providing the public with some utility or service.

11. *Interest.*—Report payments for interest on all classes of public debt. Deduct the amount received as accrued interest on original sale of debt obligations.

PUBLIC INDEBTEDNESS

Statistics relating to public indebtedness appearing in this report cover the State government and all civil divisions of the State having power to incur debt—counties, cities, towns, villages, and boroughs, school districts, townships, and other civil divisions. This indebtedness is presented under three classifications: (1) General bonds; (2) special assessment loans; and (3) all other. The amounts shown under (3) include temporary loans, warrants, orders, and audits. These statistics of indebtedness were collected in accordance with the following instructions:

General bonds.—Report all long-term bonds and serial bonds and notes, except those to be paid from special assessments against benefited property.

Special assessment loans.—Report all obligations that are to be paid from special assessments against benefited property.

Temporary loans.—Report all revenue loans, interest-bearing warrants, or other short-term obligations that are to be paid from current tax receipts or from taxes to be levied in the year of issue.

Warrants, orders, and audits.—Report the amount of unpaid warrants or orders on the treasury.

Other debt obligations.—Report all other classes of indebtedness, explaining briefly their nature.

ASSESSED VALUATIONS AND TAX LEVIES

General property taxes, as the term is used in this report, is the common designation of the direct taxes levied on real property and upon other property when they are apportioned and levied by substantially the same methods employed in apportioning and levying taxes upon privately owned real property.

[1] For the fiscal year ending June 30, 1933.
[2] For the fiscal year ending June 30, 1913.
[3] Includes cities, towns, villages, and boroughs with a population of less than 2,500.
[4] Not reported.

REVENUE RECEIPTS, GOVERNMENTAL-COST PAYMENTS, AND NET DEBT OF THE NATIONAL GOVERNMENT, STATES, COUNTIES, CITIES, TOWNS, VILLAGES, AND BOROUGHS HAVING A POPULATION OF 2,500 AND OVER, AND OF ALL OTHER CIVIL DIVISIONS: 1932 AND 1912

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that the aggregate of governmental costs of States, counties, cities, towns, villages, and boroughs, and all other subdivisions, including payments for capital outlays, is in excess of revenue receipts by $710,698,000. This excess of governmental costs over revenue receipts was 13.5 percent for the State governments, 7.5 percent for the counties, 6.6 percent for the cities, towns, villages, and boroughs, 1.4 percent for the school districts, 2 percent for the townships, and 34.5 percent for the other civil divisions.

Although the aggregate of governmental costs, including those for capital outlays, is in excess of the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $1,650,997,000.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the States, counties, and all other subdivisions amounted to $8,851,917,000, or an average of $71.09 for each person in the United States. Of this amount $2,207,935,000 was for the States; $1,313,832,000 for the counties; $3,373,594,000 for the cities, towns, villages, and boroughs; $1,514,650,000 for the school districts; $247,649,000 for the townships; and $194,257,000 for the other civil divisions. The revenues collected include $4,684,784,000, general property taxes; $418,141,000, special taxes; $18,458,000, poll taxes; $1,236,364,000, licenses and permits; $321,165,000, special assessments; $938,647,000, subventions, donations, and pension assessments; $256,106,000, interest, rents, and highway privileges; $529,998,000, earnings of public-service enterprises; $411,941,000, earnings of general departments; and $36,313,000, fines, forfeits, and escheats. Of the $938,647,000 classified as subventions, donations, and pension assessments, $238,068,000 represents subventions by the Federal Government to the States, principally for highways.

The data for school districts as presented in the general tables of this report are exclusive of the data for schools under jurisdiction of the county, city, town, village, or borough government.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the States that were included were counties and cities, towns, villages, and boroughs having a population of 2,500 and over.

General property taxes of the States, the counties, and the cities, towns, villages, and boroughs having a population of 2,500 and over amounted to $1,076,233,000 in 1912, $2,288,229,000 in 1922, and $3,175,994,000 in 1932, this being an increase of 38.8 percent from 1922 to 1932, and 195.1 percent from 1912 to 1932. Special taxes amounted to $83,679,000 in 1912, $250,079,000 in 1922, and $409,734,000 in 1932. Poll taxes amounted to $12,197,000 in 1912, $22,914,000 in 1922, and $14,773,000 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $171,421,000 in 1912, $399,389,000 in 1922, and $1,222,821,000 in 1932. Special assessments amounted to $113,159,000 in 1912, $166,511,000 in 1922, and $271,465,000 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of the States, counties, and all other subdivisions for 1932 amounted to $9,562,615,000, or an average expenditure of $76.80 per person. Of the total amount expended, $2,505,835,000 was disbursed by the State governments; $1,411,826,000 by the counties; $3,594,647,000 by the cities, towns, villages, and boroughs; $1,536,472,000 by the school districts; $252,542,000 by the townships; and $261,293,000 by the other civil divisions. The total comprises $6,049,108,000 for operation and maintenance of general departments; $307,944,000 for operation and maintenance of public-service enterprises; $843,868,000 for interest on debt; and $2,361,695,000 for outlays or permanent improvements.

For a number of States payments for operation and maintenance of general departments for the government of the cities, towns, villages, and boroughs, townships, and a few minor civil divisions are not shown by departments, for the reason that for the most part the reports secured for these units did not admit of this distribution. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities, towns, villages, and boroughs, or other

incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the States, counties, and cities, towns, villages, and boroughs having a population of 2,500 and over increased from $1,321,048,000 to $4,738,778,000, or 258.7 percent; interest payments, from $163,101,000 to $635,349,000, or 289.5 percent; and outlay payments, from $520,642,000 to $1,993,095,000, or 282.8 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State governments, and of the counties, the cities, towns, villages, and boroughs, the school districts, the townships, and the other civil divisions, by geographic divisions and States.

Table 6 presents for cities, towns, villages, and boroughs, by population groups, for the geographic divisions and States, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932.

In Table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the States, the counties, the cities, towns, villages, and boroughs, the school districts, the townships, and the other civil divisions. The amounts shown opposite the name of each State represent the combined debt of the State government and all the subdivisions of the State.

For 1932 the combined gross debt of the States and all subdivisions of the States, less sinking-fund assets set aside to meet such debt, was $17,576,839,000 or an average per capita of $141.17. In 1922 the average per capita was $79.90 and in 1912, $39.37.

Of the total debt reported for 1932, $2,360,958,000 was for the State governments; $2,390,830,000 for the counties; $8,842,189,000 for the cities, towns, villages, and boroughs; $2,039,852,000 for the school districts; $343,879,000 for the townships; and $1,599,131,000 for the other civil divisions.

The total net debt, or the gross debt less sinking-fund assets, of the State governments increased 152.4 percent from 1922 to 1932 and 582.5 percent from 1912 to 1932. The net debt of the counties increased 87.8 percent from 1922 to 1932 and 543.4 percent from 1912 to 1932. The net debt of the cities, towns, villages, and boroughs increased 89 percent from 1922 to 1932 and 207.9 percent from 1912 to 1932. The combined net debt of the school districts, the townships, and all other civil divisions increased 121.1 percent from 1922 to 1932 and 1,611.4 percent from 1912 to 1932.

ASSESSED VALUATIONS

The assessed valuation of all property in the 48 States and the District of Columbia subject to levies of the general property tax was $163,317,104,000 in 1932 as compared with $124,616,675,000 in 1922 and $69,452,936,000 in 1912. The per capita assessed valuation increased from $715.48 in 1912 to $1,146.16 in 1922, and to $1,311.67 in 1932.

TAX LEVIES

The tax levies as presented in this report are the amounts proposed to be raised by taxation of property subject to general property taxes.

The total levies of the general property tax for the 48 States and the District of Columbia and all subdivisions of the States were $1,349,841,000 for 1912, $3,503,725,000 for 1922, and $5,026,763,000 for 1932, this being a per capita of $13.91, $32.23, and $40.37, respectively.

As is disclosed by an inspection of table 9, four States—Pennsylvania, Delaware, Oregon, and California—made no levy of the general property tax for State purposes for 1932. Other States made such levies only for limited and specified purposes, or upon specified classes of property.

In 1922 Pennsylvania, North Carolina, and California made no levy of the general property tax for State purposes, and in 1912 Connecticut and Delaware made no levy for State purposes.

Of the total levies reported for 1932, $359,011,000 was for the State governments; $924,309,000 for the counties; $2,200,651,000 for the cities, towns, villages, and boroughs; $1,197,839,000 for the school districts; $216,507,000 for the townships; and $128,446,000 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $1.94 for 1912, $2.81 for 1922, and $3.08 for 1932

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS OF STATES, COUNTIES, CITIES, TOWNS, VILLAGES, AND BOROUGHS, SCHOOL DISTRICTS, TOWNSHIPS, AND OTHER CIVIL DIVISIONS, BY GEOGRAPHIC DIVISIONS AND STATES: 1932

[1] Exclusive of schools under administration of counties, cities, towns, villages, and boroughs. (For detail see individual State reports.)

[2] Includes only debt of school districts outside of cities, towns, villages, and boroughs having a population of 2,500 and over. Debt on account of schools in cities, towns, villages, and boroughs with a population of 2,500 and over is included with cities, towns, villages, and boroughs.

[3] Not computed.

[4] Includes townships of Missouri, South Carolina, and Washington.

[5] No State indebtedness reported; the Virginia-West Virginia debt settlement was not made until 1919.

Governmental-cost payments 70
Public indebtedness 71
Assessed valuations 71
Tax levies 71

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties and cities and towns, by counties: 1931 72
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1931 79
3. Governmental-cost payments and per capita total governmental-cost payments of counties and cities and towns, by counties: 1931 81
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1931 88
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties and cities and towns, by counties: 1931 89
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities and towns, by population groups: 1931 93
7. Total and per capita of the combined gross debt less sinking fund assets of counties and cities and towns, by counties: 1931, 1922, and 1912 94
8. *Total and per capita assessed valuation of all property subject to the general property tax, by* counties: 1931, 1922, and 1912 95
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, and cities and towns, by counties: 1931, 1922, and 1912 97

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Alabama relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 67 counties, and the 297 cities and towns, or a total of 365 political units that have the power to levy taxes or incur debt.

The data for Alabama were compiled from reports on file in the offices of the State Auditor and the State Department of Education, Montgomery, Ala., and from reports secured by local agents and through correspondence.

Fiscal year.—For Alabama the fiscal year reported for the State government is that ending September 30, 1931, while the statistics for the counties and the cities and towns are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Alabama on January 1, 1932, was 2,677,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Alabama the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $7,177,171.

The excess of governmental costs over revenue receipts was 16.5 percent for the State government, 1.7 percent for the counties, and 7.7 for the cities and towns.

Although the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts, revenue receipts exceed governmental costs, exclusive of capital outlays, by $9,650,814.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Alabama and all subdivisions of the State amounted to $82,968,618, or an average of $30.99 for each person in the State. Of this amount $31,359,822 was for the State; $32,405,371 for the counties; and $19,203,425 for the cities and towns. The revenues collected include $32,395,025, general property taxes; $1,788,543, special taxes; $327,693, poll taxes; $14,664,428, licenses and permits; $3,406,235, special assessments; $20,069,601, subventions, donations, and pension assessments; $1,012,006, interest, rents, and highway privileges; $3,494,787, earnings of public service enterprises; $5,117,862 earnings of general departments; and $692,438, fines, forfeits, and escheats. Of the $20,069,601 classified as subventions, donations, and pension assessments, $5,306,930 represents subventions by the Federal Government to the State, principally for highways.

The schools of a few cities and towns of Alabama are administered by the city or town government. For the most part, however, the schools of this State are under county administration.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $9,409,000 in 1912, $22,310,000 in 1922, and $32,049,200 in 1931, this being an increase of 43.7 percent from 1922 to 1931, and 240.6 percent from 1912 to 1931. Special taxes amounted to $143,000 in 1912, $817,000 in 1922, and $1,788,543 in 1931. Poll taxes amounted to $344,000 in 1912, $298,000 in 1922, and $310,216 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $2,276,000 in 1912, $5,126,000 in 1922, and $14,402,051 in 1931. Special assessments amounted to $889,000 in 1912, $1,110,000 in 1922, and $3,330,626 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Alabama and all subdivisions of the State for 1931 amounted to $90,145,789, or an average expenditure of $33.67 per person. Of the total amount expended, $36,519,437 was disbursed by the State government; $32,944,187 by the counties; and $20,682,165 by the cities and towns. The total comprises $60,598,217 for operation and maintenance of general departments; $1,978,824 for operation and maintenance of public service enterprises; $10,740,763 for interest on debt; and $16,827,985 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for the cities and towns did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State and the counties are shown by departments in table 3.

Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to the States, counties, and cities and towns having a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $12,873,000 to $61,792,236, or 380 percent; interest payments, from $1,762,000 to $10,599,738, or 501.6 percent; and outlay payments, from $2,571,000 to $16,736,815, or 551 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties and the cities and towns.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, and the cities and towns. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1931 the combined gross debt of Alabama and all subdivisions of the State less sinking fund assets set aside to meet such debt was $210,822,063, or an average per capita of $78.75. In 1922 the average per capita was $31.37, and in 1912, $19.24.

Of the total debt reported for 1931, $82,342,068 was for the State government; $45,730,310 for the counties; and $82,749,685 for the cities and towns

The gross debt of the State government, less sinking fund assets, increased 440.6 percent from 1922 to 1931 and 527 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 114.3 percent from 1922 to 1931 and 329.3 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Alabama, for the purpose of assessment, real and personal property is estimated at its fair market value and is assessed at 60 percent of such value. Assessments are made by county assessors. The return and listing of property for taxation commences on October 1 of each year and must be finished by January 1, following.

The assessed valuation of all property in Alabama subject to levies of the general property tax was $1,210,875,924 in 1931 as compared with $943,516,000 in 1922 and $566,807,000 in 1912. The per capita assessed valuation increased from $253.20 in 1912 to $393.65 in 1922, and to $452.33 in 1931.

TAX LEVIES

In Alabama, State and county taxes are collected by a county tax collector. Unless otherwise provided, taxes become due and payable on October 1, and delinquent on January 1, following.

County tax collectors are also required to collect levies made for school purposes, and turn the same over to the treasurer of the school funds.

Municipalities may provide for the assessment, equalization, and collection of taxes by officers and boards performing such duties for the State and counties.

The total levies of the general property tax for the State and all subdivisions were $9,971,000 for 1912, $22,684,000 for 1922, and $32,790,485 for 1931, this being a per capita of $4.45, $9.46, and $12.25, respectively.

Of the total levies reported for 1931, $7,870,694 was for the State; $17,231,614 for the counties; and $7,688,177 for the cities and towns. The average rate of levy per $100 of the assessed valuation was $1.76 for 1912, $2.40 for 1922, and $2.71 for 1931.

Tax levies — 102

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, and other civil divisions, by counties: 1931 — 103
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1931 — 106
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, and other civil divisions, by counties: 1931 — 107
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1931 — 110
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1931 — 110
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities and towns, by population groups: 1931 — 112
7. Total and per capita of the combined gross debt, less sinking fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 — 112
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 — 113
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 — 113

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Arizona relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 14 counties, the 34 cities and towns, the 457 school districts, and the 43 other civil divisions (agriculture improvement districts, drainage districts, electric districts, fire districts, irrigation districts, power districts, water conservation district, and weed districts), or a total of 549 political units that have power to levy taxes or incur debt.

The data for Arizona were compiled largely from reports on file in the office of the State superintendent of instruction, Phoenix, Ariz., and from reports received through correspondence.

Fiscal year.—For Arizona the fiscal year reported for the State government is that ending June 30, 1931, while the statistics for the counties, the cities and towns, the school districts, and the other civil divisions, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Arizona on January 1, 1932, was 446,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Arizona the aggregate of governmental costs is in excess of revenue receipts by $357,811. This excess of governmental costs over revenue receipts was 6.6 percent for the State government, 3.7 percent for the cities and towns, and 6 percent for the other civil divisions. For the counties and for the school districts, revenue receipts were in excess of governmental costs, the percent of excess being 2.9 for the counties and 4.8 for the school districts.

Although the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $8,903,283.

Receipts from the issue of debt obligations are not classed as revenue receipts or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Arizona and all subdivisions of the State amounted to $43,574,414, or an average of $97.70 for each person in the State. Of this amount $13,546,724 was for the State; $12,513,002 for the counties; $5,598,552 for the cities and towns; $10,418,130 for the school districts; and $1,498,006 for the other civil divisions. The revenues collected include $21,210,962, general property taxes; $138,872, special taxes; $109,206, poll taxes; $4,058,651, licenses and permits; $2,379,993, special assessments; $12,070,942, subventions, donations, and pension assessments; $651,912, interest, rents, and highway privileges; $1,590,887, earnings of public service enterprises; $1,255,520, earnings of general departments; and $107,469, fines, forfeits, and escheats. Of the $12,070,942 classified as subventions, donations, and pension assessments, $3,849,298 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and urban places having a population of 2,500 and over amounted to $4,560,000 in 1912, $13,765,000 in 1922, and $16,744,060 in 1931, this being an increase of 21.6 percent from 1922 to 1931, and 267.2 percent from 1912 to 1931. Special taxes amounted to $114,000 in 1922 and $138,872 in 1931. Poll taxes amounted to $146,000 in 1912, $162,000 in 1922, and $107,964 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $414,000 in 1912, $730,000 in 1922, and $4,038,075 in 1931. Special assessments amounted to $15,000 in 1912, $706,000 in 1922, and $982,574 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Arizona and all subdivisions of the State for 1931 amounted to $43,932,225, or an average expenditure of $98.50 per person. Of the total amount expended, $14,442,078 was disbursed by the State government; $12,154,752 by the counties; $5,805,239 by the cities and towns; $9,942,293 by the school districts; and $1,587,863 by the other civil divisions. The total comprises $30,005,078 for operation and maintenance of general departments; $824,758 for operation and maintenance of public service enterprises; $3,841,295 for interest on debt; and $9,261,094 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in tables 3 and 4 for the reason that for the most part, the reports secured for the cities and towns did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation. The amount reported by counties as expenditures for schools represents an apportionment to minor civil divisions for education.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities and towns or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public

service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $4,373,000 to $21,686,326, or 395.9 percent; interest payments, from $373,000 to $2,134,968, or 472.4 percent; and outlay payments, from $1,044,000 to $8,216,669, or 687 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1931. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1931 the combined gross debt of Arizona and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $71,777,316, or an average per capita of $160.93. In 1922 the average per capita was $124.61, and in 1912, $45.01.

Of the total debt reported for 1931, $3,676,633 was for the State government; $16,636,314 for the counties; $18,822,368 for the cities and towns; $11,453,534 for the school districts; and $21,188,467 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, increased 34.2 percent from 1922 to 1931, and 20 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 61.2 percent from 1922 to 1931, and 829.8 percent from 1912 to 1931.

ASSESSED VALUATIONS

The State tax commission exercises general supervision over the administration of the assessment and taxation laws of the State, over city, town, and county assessors, and all local boards of levy and assessment. Assessments are made by county assessors between first Monday in January and May 1 in each year. These officers determine the full cash value of all property subject to taxation in their counties.

The assessed valuation of all property in Arizona subject to levies of the general property tax was $674,729,235 in 1931 as compared with $733,995,000 in 1922 and $140,338,000 in 1912. The per capita assessed valuation increased from $608.03 in 1912 to $2,033.77 in 1922, and decreased to $1,512.85 in 1931.

TAX LEVIES

State, county, and municipal taxes are collected by the county treasurer who is ex-officio tax collector. The first half of the taxes is due on or before the first Monday in November, and the second half is due on or before the first Monday in May.

The total levies of the general property tax for the State and all subdivisions were $4,358,000 for 1912, $15,352,000 for 1922, and $21,807,363 for 1931, this being a per capita of $18.88, $42.54, and $48.90, respectively.

Of the total levies reported for 1931, $6,409,928 was for the State government; $9,034,340 for the counties; $2,677,262 for the cities and towns; $3,469,763 for the school districts; and $216,070 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $3.11 for 1912, $2.09 for 1922, and $3.23 for 1931.

6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities and towns, by population groups: 1932 150
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1932, 1922, and 1912 151
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 152
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, and school districts, by counties: 1932, 1922, and 1912 154

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Arkansas relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies for the State government, the 75 counties, the 389 cities and towns, the 3,086 school districts, and the 687 other civil divisions (drainage, levee, improvement, paving, sewer, water, and several miscellaneous districts), or a total of 4,238 political units that have power to levy taxes or incur debt.

The only data reported for the cities of Hope and Wynne or for the towns of Springdale and Warren related to tax levies, and for the city of Camden, to tax levies and debt.

The data for Arkansas were compiled largely from reports on file in the offices of the State comptroller and the State superintendent of public instruction, Little Rock, Ark., and from reports secured by local agents and through correspondence.

Fiscal year.—For Arkansas the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, cities and towns, school districts, and other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Arkansas on January 1, 1932, was 1,865,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Arkansas the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $11,452,997. The excess of governmental costs over revenue receipts was 49.4 percent for the State government. For the counties, the cities and towns, the school districts, and the other civil divisions, revenue receipts were in excess of governmental costs, the percent of excess being 0.9 for the counties, 7.8 for the cities and towns, 1.5 for the school districts, and 34.5 for the other civil divisions. Although the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $10,184,880.

Receipts from the issue of debt obligations are not classed as revenue receipts or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Arkansas and all subdivisions of the State amounted to $56,903,207, or an average of $30.51 for each person in the State. Of this amount $26,157,208 was for the State; $11,851,302 for the counties; $3,527,262 for the cities and towns; $11,736,040 for the school districts; and $3,631,395 for the other civil divisions. The revenues collected include $19,978,854, general property taxes; $1,107,253, special taxes; $299,823, poll taxes; $12,892,130, licenses and permits; $3,305,288, special assessments; $14,594,646, subventions, donations, and pension assessments; $394,195, interest, rents, and highway privileges; $1,133,503, earnings of public-service enterprises; $2,905,705, earnings of general departments; and $291,810, fines, forfeits, and escheats. Of the $14,594,646 classified as subventions, donations, and pension assessments, $6,824,028 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties and cities and towns having a population of 2,500 and over.

The general property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $7,306,000 in 1912, $10,097,000 in 1922, and $10,880,169 in 1932, this being an increase of 7.8 percent from 1922 to 1932, and 48.9 percent from 1912 to 1932. Special taxes amounted to $221,000 in 1912, $700,000 in 1922, and $1,107,253 in 1932. Poll taxes amounted to $253,000 in 1912, $479,000 in 1922, and $292,073 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $623,000 in 1912, $2,390,000 in 1922, and $12,858,340 in 1932. Special assessments amounted to $601,000 in 1912, $1,000 in 1922, and $52,805 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Arkansas and all subdivisions of the State for 1932 amounted to $68,356,204, or an average expenditure of $36.65 per person. Of the total amount expended, $39,072,935 was disbursed by the State government; $11,750,552 by the counties; $3,273,038 by the cities and towns; $11,559,711 by the school districts; and $2,699,968 by the other civil divisions. The total comprises $35,005,921 for operation and maintenance of general departments; $583,080 for operation and maintenance of public-service enterprises; $11,129,326 for interest on debt; and $21,637,877 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in tables 3 and 4, for the reason that for the most part the reports secured for the cities and towns did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Arkansas were limited to the State, counties, and cities and towns with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns having a popula-

tion of 2,500 and over increased from $8,109,000 to $24,810,272, or 206 percent; interest payments, from $347,000 to $8,199,562, or 2,263 percent; and outlay payments, from $2,583,000 to $20,713,715, or 701.9 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of Arkansas and all subdivisions of the State less sinking fund assets set aside to meet such debt was $255,868,988, or an average per capita of $137.20. In 1922 the average per capita was $51.03, and in 1912, $8.32.

Of the total debt reported for 1932, $164,423,351 was for the State government; $5,828,693 for the counties; $5,700,454 for the cities and towns; $27,752,562 for the school districts; and $52,163,928 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 5,940.5 percent from 1922 to 1932 and 13,202.9 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 3.3 percent from 1922 to 1932 and 627.1 percent from 1912 to 1932.

ASSESSED VALUATIONS

In each odd numbered year, the county assessor, on or before the third Monday in August files with the county clerk a report of the assessment of all real property of said county situated within the boundaries of any city or town, and in each even numbered year, all real property of said county situated without the boundaries of any city or town. A report of all assessable personal property is filed each year. The Arkansas Tax Commission not later than 10 days before the time for the beginning of assessment by the assessors, files with the county clerk and the assessor of each county the percent of market value to be used as a basis for taxation.

The assessed valuation of all property in Arkansas subject to levies of the general property tax was $554,834,984 in 1932 as compared with $578,462,000 in 1922 and $427,473,000 in 1912. The per capita assessed valuation increased from $257.54 in 1912 to $323.38 in 1922, and decreased to $297.50 in 1932.

TAX LEVIES

The sheriff of each county is the ex-officio collector of taxes. Taxes on real and personal property are payable from the first Monday in January to and including the tenth day of April, after which they become delinquent.

The total levies of the general property tax for the State and all subdivisions were $10,621,000 for 1912, $17,476,000 for 1922, and $20,382,358 for 1932, this being a per capita of $6.40, $9.77, and $10.93, respectively.

Of the total levies reported for 1932, $4,827,064 was for the State government; $4,671,994 for the counties; $1,593,946 for the cities and towns; and $9,289,354 for the school districts. The average rate of levy per $100 of the assessed valuation was $2.48 for 1912, $3.02 for 1922, and $3.67 for 1932.

Governmental-cost payments 159
Public indebtedness 160
Assessed valuations 160
Tax levies 160

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, and other civil divisions, by counties: 1932 161
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1932 170
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, and other civil divisions, by counties: 1932 175
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1932 184
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1932 189
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita of cities and towns, by population groups: 1932 194
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities and towns, school districts, and other civil divisions, by counties: 1932, 1922, and 1912 197
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 198
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of counties, cities and towns, school districts, and other civil divisions, by counties: 1932, 1922, and 1912 200

INTRODUCTION

Scope of report.—The statistics herein presented for the State of California relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 58 counties, the 278 cities and towns, the 3,531 school districts, and the 1,442 other civil divisions (irrigation, reclamation, fire, lighting, cemetery, road, and various other districts), or a total of 5,310 political units that have power to levy taxes or incur debt.

The data for California were compiled largely from reports on file in the office of the State controller, Sacramento, Calif., and from reports received through correspondence.

Fiscal year.—For California the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and towns, the school districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The population of California on January 1, 1932, was 5,906,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for California the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $40,931,888.

This excess of governmental costs over revenue receipts was 12.9 percent for the State government, 11.6 percent for the counties, and 6.5 percent for the cities and towns. For the school districts and the other civil divisions, revenue receipts were in excess of governmental costs, the percent of excess being 1.2 for the school districts and 10 for the other civil divisions.

Although the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $109,392,139.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

[1] Data for the schools of the city of San Francisco are included with the data for cities and towns.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of California and all subdivisions of the State amounted to $631,048,865, or an average of $106.85 for each person in the State. Of this amount $118,896,700 was for the State; $143,255,012 for the counties; $210,011,810 for the cities and towns; $125,657,738 for the school districts; and $33,227,605 for the other civil divisions. The revenues collected include $310,695,886, general property taxes; $10,125,361, special taxes; $14, poll taxes (delinquent); $101,731,530, licenses and permits; $26,008,526, special assessments; $67,676,268, subventions, donations, and pension assessments; $14,874,665, interest, rents, and highway privileges; $68,137,809, earnings of public service enterprises; $27,767,249, earnings of general departments; and $4,031,557, fines, forfeits, and escheats. Of the $67,676,268 classified as subventions, donations, and pension assessments, $8,827,155 represents subventions by the Federal Government to the State, principally for highways. The schools of San Francisco are administered by the city government. Therefore, the data for these schools are included with the data for cities and towns in the general tables of this report.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $69,433,000 in 1912, $115,831,000 in 1922, and $211,084,704 in 1932, this being an increase of 82.2 percent from 1922 to 1932, and of 204 percent from 1912 to 1932. Special taxes amounted to $3,273,000 in 1912, $14,114,000 in 1922, and $10,125,361 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $14,331,000 in 1912, $35,398,000 in 1922, and $101,342,546 in 1932. Special assessments amounted to $11,337,000 in 1912, $10,671,000 in 1922, and $22,007,887 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of California and all subdivisions of the State for 1932 amounted to $671,980,753, or an average expenditure of $113.78 per person. Of the total amount expended, $134,272,246 was disbursed by the State government; $159,836,751 by the counties; $223,558,286 by the cities and towns; $124,110,520 by the school districts; and $30,202,950 by the other civil divisions. The total comprises $434,736,962 for operation and maintenance of general departments; $33,627,741 for operation and maintenance of public service enterprises; $53,292,023 for interest on debt; and $150,324,027 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $36,718,157; protection to person and property, $51,517,704; health and sanitation, $15,368,900; development and conservation of natural resources, $10,841,675; highways, $42,166,411; charities, hospitals, and corrections, $49,582,375; schools, $203,806,201; libraries, $4,825,593; recreation, $9,308,523; and miscellaneous, $10,601,423. Expenditures for maintenance of schools other than schools of the State government and those for the city of San Francisco may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for California were limited to the State, counties, and cities and towns with a population of 2,500 and over. Data for the incorporated places reported included data for the

schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns of 2,500 population and over increased from $89,830,000 to $354,660,423, or 294.8 percent; interest payments, from $6,052,000 to $30,059,112, or 396.7 percent; and outlay payments, from $55,459,000 to $128,586,340, or 131.9 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1932 the combined gross debt of California and all subdivisions of the State less sinking fund assets set aside to meet such debt was $1,099,415,874, or an average per capita of $186.15. In 1922 the average per capita was $142.81, and in 1912, $55.01.

Of the total debt reported for 1932, $145,722,790 was for the State government; $45,083,904 for the counties; $473,044,245 for the cities and towns; $182,184,744 for the school districts; and $253,380,191 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 70.9 percent from 1922 to 1932 and 1,325.4 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 119.2 percent from 1922 to 1932 and 598.5 percent from 1912 to 1932.

ASSESSED VALUATIONS

In California the assessment of taxable property is made annually by county assessors between the first Monday in March and the first Monday in July.

All property in the State not exempt is subject to general county and municipal taxation, except (1) the operative property of public-service enterprises; (2) the property of insurance companies; (3) banks and banking associations; (4) all franchises. These four classes of property are taxed solely and exclusively for the support of the State government, except amounts payable for special privileges or franchises granted by municipalities.

The assessed valuation of all property in California subject to levies of the general property tax was $7,951,084,993 in 1932 as compared with $4,201,148,000 in 1922 and $2,921,277,000 in 1912. The per capita assessed valuation increased from $1,095.13 in 1912 to $1,153.20 in 1922, and to $1,346.27 in 1932.

TAX LEVIES

County collectors, who are ex-officio collectors of licenses, collect all county and, in some cases, municipal taxes. In municipalities in which the assessment is separate from that of the county, the municipal taxes are collected by local officials.

The total levies of the general property tax for the State and all subdivisions were $62,689,000 for 1912, $178,383,000 for 1922, and $315,692,563 for 1932, this being a per capita of $23.50, $48.97, and $53.45, respectively.

Of the total levies reported for 1932, $109,001,319 was for the counties; $105,475,779 for the cities and towns; $79,209,367 for the school districts; and $22,006,098 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $2.15 for 1912, $4.25 for 1922, and $3.97 for 1932.

In California there is no levy of the general property tax for State purposes.

[1] For an explanation of the population used in computing per capita figures, see text discussion, p. v.
[2] Includes $10,093,790, inheritance taxes, and $31,571, other special taxes, for State purposes only.
[3] Exclusive of San Francisco County.
[4] Includes municipal improvement districts and acquisition and improvement districts within cities and towns. Such districts located outside of cities and towns are included with "Other civil divisions."
[5] Exclusive of the schools in the city of San Francisco, which are included with cities and towns.
[6] Not computed.
[7] Tabulated as municipal; coextensive with the city of San Francisco.

[a] Mono County not listed. Omission from table 5 of any civil division listed in tables 1 or 3 indicates no debt reported for such division.

[1] Includes municipal improvement districts and acquisition and improvement districts within cities and towns. Such districts located outside of cities and towns are included with "Other civil divisions."

[2] Exclusive of schools of the city of San Francisco, which are included with cities and towns.

[3] Not computed.

[4] Tabulated as municipal; coextensive with city of San Francisco.

[1] Includes data for municipal improvement districts and acquisition and improvement districts within cities and towns. The data for such districts as are located outside of cities and towns are included with "Other civil divisions."

[2] Exclusive of debt on account of schools in the city of San Francisco. Such debt is included with that of cities and towns.

[3] Includes only the debt of school districts outside of cities and towns with a population of 2,500 and over. Debt on account of schools in cities and towns with a population of 2,500 and over is included with city or town liabilities.

[4] Not computed.

[5] Mono County not listed; no debt reported.

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Colorado relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 63 counties, the 232 cities and towns, the 2,052 school districts, and approximately 66 other civil divisions (conservancy, drainage, irrigation, and tunnel districts), or a total of 2,414 political units that have the power to levy taxes or incur debt.

The data for Colorado were compiled from reports on file in the offices of the department of public instruction and the State tax commission, Denver, Colo., and from reports received through correspondence.

Fiscal year.—For Colorado the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and towns, the school districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Colorado on January 1, 1932, was 1,046,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Colorado the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $208,619; excluding capital outlays, this excess amounts to $15,867,189.

The excess of revenue receipts over governmental costs was 2 percent for the State government and 0.8 percent for the counties. For the cities and towns and the school districts, governmental costs exceeded revenue receipts, the percent of excess being 0.9 for the cities and towns and 3.4 for the school districts.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Colorado and all subdivisions of the State amounted to $84,778,775, or an average of $81.05 for each person in the State. Of this amount $21,880,061 was for the State; $15,269,190 for the counties; $22,904,309 for the cities and towns; $22,947,111 for the school districts; and $1,778,104 for the other civil divisions. The revenues collected include $43,756,936, general property taxes; $1,016,317, special taxes; $9,634,779, licenses and permits; $4,168,854, special assessments; $11,477,393, subventions, donations, and pension assessments; $1,700,509, interest, rents, and highway privileges; $7,539,997, earnings of public service enterprises; $5,281,533, earnings of general departments; and $202,457, fines, forfeits, and escheats. Of the $11,477,393 classified as subventions, donations, and pension assessments, $4,285,255 represents subventions by the Federal Government to the State, principally for highways.

In addition to the revenue derived from district school levies, the counties levy a general tax for school purposes, the data for which are included with the data for counties.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $12,951,000 in 1912, $25,378,000 in 1922, and $25,880,976 in 1932, this being an increase of 2 percent from 1922 to 1932, and of 99.8 percent from 1912 to 1932. Special taxes amounted to $281,000 in 1912, $817,000 in 1922, and $1,016,317 in 1932. Poll taxes amounted to $104,000 in 1912 and $5,000 in 1922. No poll taxes were reported for Colorado in 1932. Licenses and permits, which include automobile license tax and the tax on gasoline, amounted to $1,107,000 in 1912, $2,581,000 in 1922, and $9,594,438 in 1932. Special assessments amounted to $1,229,000 in 1912, $2,677,000 in 1922, and $2,610,479 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Colorado and all subdivisions of the State for 1932 amounted to $84,570,156, or an average expenditure of $80.85 per person. Of the total amount expended, $21,445,900 was disbursed by the State government; $15,150,793 by the counties; $23,113,870 by the cities and towns; $23,733,332 by the school districts; and $1,126,261 by the other civil divisions. The total comprises $59,888,786 for operation and maintenance of general departments; $3,330,930 for operation and maintenance of public service enterprises; $5,691,870 for interest on debt; and $15,658,570 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for the cities and towns did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3.

Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to the States, counties, and cities and towns with a population of 2,500 and over.

Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $15,233,000 to $40,788,809, or 167.8 percent; interest payments, from $1,324,000 to $2,956,332, or 123.3 percent; and outlay payments, from $6,126,000 to $13,907,932, or 127 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities and towns, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1932 the combined gross debt of Colorado and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $129,504,338, or an average per capita of $123.81. In 1922 the average per capita was $101.78, and in 1912, $44.89.

Of the total debt reported for 1932, $6,746,892 was for the State government; $3,189,986 for the counties; $61,509,187 for the cities and towns; $31,820,347 for the school districts; and $26,237,926 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, decreased 43.9 percent from 1922 to 1932 and increased 112.6 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 40.8 percent from 1922 to 1932 and 236.6 percent from 1912 to 1932.

ASSESSED VALUATIONS

With some exceptions, property is listed and assessed annually for State, county, and local taxation at its full cash value, by county assessors who are elected for 2 years.

Each resident is required to deliver to the assessor, between April 1 and May 20, a correct schedule of the real and personal property owned or held by him with the full cash value of each item; but the assessor determines for himself such value after an examination of the schedule.

The assessed valuation of all property in Colorado subject to levies of the general property tax was $1,447,169,719 in 1932, as compared with $1,550,762,000 in 1922 and $422,330,000 in 1912. The per capita assessed valuation increased from $478.14 in 1912 to $1,591.13 in 1922, and decreased to $1,383.53 in 1932.

TAX LEVIES

In Colorado the county treasurer of each county is, by virtue of his office, collector of all taxes therein, including city and town taxes. Taxes are payable in two installments—one half payable on or before the last day of February and the remaining half on or before the last day of July of the year following the one in which they were assessed.

The total levies of the general property tax for the State and all subdivisions were $16,931,000 for 1912, $44,588,000 for 1922, and $44,887,205 for 1932, this being a per capita of $19.17, $45.75, and $42.91, respectively.

Of the total levies reported for 1932, $5,074,031 was for the State government; $11,094,053 for the counties; $10,865,126 for the cities and towns; and $17,853,995 for the school districts. The average rate of levy per $100 of the assessed valuations was $4.01 for 1912, $2.88 for 1922, and $3.10 for 1932.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES AND TOWNS, SCHOOL DISTRICTS, AND OTHER CIVIL DIVISIONS, BY COUNTIES: 1932

[1] For an explanation of the population used in computing per capita figures, see text discussion, p. V.
[2] Includes, $777,035, inheritance taxes, and $239,282, other special taxes, for State purposes only.
[3] Exclusive of Denver County.
[4] Exclusive of county schools
[5] Not computed.
[6] Includes the Moffat Tunnel Improvement District, not distributable by counties.

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, and boroughs, school districts, towns, fire districts, improvement districts, metropolitan district, and other civil divisions, by counties, 1931 243
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and boroughs, by population groups: 1931 246
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and boroughs, school districts, towns, fire districts, improvement districts, metropolitan district, and other civil divisions, by counties: 1931 248
4. Governmental-cost payments and per capita total governmental-cost payments of cities and boroughs, by population groups, 1931 250
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and boroughs, school districts, towns, fire districts, improvement districts, metropolitan district, and other civil divisions, by counties: 1931 252
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and boroughs, by population groups: 1931 253
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and boroughs, school districts, towns, fire districts, improvement districts, metropolitan district, and other civil divisions, by counties: 1931, 1922, and 1912 254
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 254
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and boroughs, school districts, towns, fire districts, improvement districts, metropolitan district, and other civil divisions, by counties: 1931, 1922, and 1912 255

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Connecticut relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 8 counties, the 40 cities and boroughs (including 14 consolidated towns and cities and 1 consolidated town and borough), the 42 school districts, the 154 towns, the 59 fire districts, the 33 improvement districts, the 1 metropolitan district, and the 18 other civil divisions, or a total of 356 political units that have power to levy taxes or incur debt.

The data for Connecticut were compiled from reports on file in the offices of the State tax commissioner and State department of education, Hartford, Conn., and from reports received through correspondence.

Fiscal year.—For Connecticut the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and boroughs, the school districts, the towns, the fire districts, the improvement districts, the metropolitan district, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Connecticut on January 1, 1932, was 1,630,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies, 1931.—The following statement discloses that for Connecticut the aggregate of governmental costs, including those for capital outlays, is in excess of the revenue receipts. The State government, the cities and boroughs, the school districts, the towns, and the improvement districts show an excess of governmental costs over revenue receipts, but for the counties, the fire districts, the metropolitan district, and the other civil divisions, an excess of revenue receipts over governmental costs is shown.

Although the aggregate of governmental costs, including those for capital outlays, is $10,663,766 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $22,855,088.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Connecticut and all subdivisions of the State amounted to $128,221,854, or an average of $78.66 for each person in the State. Of this amount $37,470,591 was for the State; $1,915,247 for the counties; $54,274,853 for the cities and boroughs; $2,467,232 for the school districts; $30,049,364 for the towns; $609,962 for the fire districts; $154,326 for the improvement districts; $1,163,194 for the metropolitan district; and $117,085 for the other civil divisions. The revenues collected include $73,943,111, general property taxes; $10,611,120, special taxes; $1,035,279, poll taxes; $20,601,695, licenses and permits; $1,326,374, special assessments; $6,746,331, subventions, donations, and pension assessments; $2,480,987, interest, rents, and highway privileges; $4,303,555, earnings of public service enterprises; $6,390,072, earnings of general departments; and $783,330, fines, forfeits, and escheats. Of the $6,746,331 classified as subventions, donations, and pension assessments, $1,993,644 represents subventions by the Federal Government to the State, principally for highways. .

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and the cities and boroughs and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and boroughs having a population of 2,500 and over amounted to $9,315,000 in 1912, $32,840,000 in 1922, and $47,144,130 in 1931, this being an increase of 43.6 percent from 1922 to 1931, and of 406.1 percent from 1912 to 1931. Special taxes amounted to $4,844,000 in 1912, $5,780,000 in 1922, and $9,642,138 in 1931. Poll taxes amounted to $401,000 in 1912, $363,000 in 1922, and $587,312 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $1,348,000 in 1912, $9,645,000 in 1922, and $20,393,733 in 1931. Special assessments amounted to $398,000 in 1912, $1,184,000 in 1922, and $814,571 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Connecticut and all subdivisions of the State for 1931 amounted to $138,885,620, or an average expenditure of $85.21 per person. Of the total amount expended, $41,400,545 was disbursed by the State Government; $1,728,258 by the counties; $59,472,840 by the cities and boroughs; $2,651,550 by the school districts; $31,780,239 by the towns; $557,044 by the fire districts; $234,064 by the improvement districts; $959,650 by the metropolitan district; and $101,430 by the other civil divisions. The total comprises $94,861,292 for operation and maintenance of general departments; $2,599,510 for operation and maintenance of public-service enterprises; $7,905,964 for interest on debt; and $33,518,854 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $8,376,355; protection to person and property, $12,943,150; health and sanitation, $5,765,401; development and conservation of natural resources by State government, $1,032,461; highways, $11,405,125; charities, hospitals, and corrections, $13,296,696; schools, $34,605,030; libraries, $1,093,721; recreation, $1,985,522; and miscellaneous, $4,357,831. Expenditures for maintenance of schools other than schools of the State government and those for cities of over 30,000 population may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Connecticut were limited to the State, counties, and the towns and cities and boroughs with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments

and public service enterprises of the State, counties, and cities and boroughs of 2,500 population and over increased from $15,748,000 to $69,510,541, or 341.4 percent; interest payments, from $1,477,000 to $5,080,631, or 244 percent; and outlay payments, from $4,307,000 to $27,757,117, or 544.5 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and boroughs, the school districts, the towns, the fire districts, the improvement districts, the metropolitan district, and the other civil divisions, by counties.

Table 6 presents for the individual cities and boroughs, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities and boroughs in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and boroughs, the school districts, and the towns. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1931 the combined gross debt of Connecticut and all subdivisions of the State less sinking fund assets set aside to meet such debt was $160,700,082, or an average per capita of $98.59. In 1922 the average per capita was $70.33, and in 1912, $44.03.

Of the total debt reported for 1931, $108,342 was for the State government; $2,938,180 for the counties; $103,234,974 for the cities and boroughs; $10,755,938 for the school districts; $41,386,656 for the towns; $868,454 for the fire districts; $199,917 for the improvement districts; $311,062 for the metropolitan district; and $896,559 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, decreased 98.2 percent from 1922 to 1931 and 98.5 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 69.3 percent from 1922 to 1931 and 257.5 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Connecticut property is assessed by town assessors, one elected annually for a term of 3 years, except in towns in which officers are elected biennially, in which case assessors are elected for a term of 4 years.

Lists of property are required to be filed with the assessors on or before October 1 of each year. All property is assessed at its fair market value, which is deemed to be the present true and actual value thereof. Assessors are required during each period of 10 years after February 1, 1930, to make a revaluation of real estate. All valuations must be separately approved by a majority of the assessors. All school district, fire district, and highway taxes, or taxes of any other subdivision of a town, are laid on the assessment list of the town.

The assessed valuation of all property in Connecticut subject to levies of the general property tax was $3,151,283,930 in 1931 as compared with $1,962,764,000 in 1922 and $1,041,334,000 in 1912. The per capita assessed valuation increased from $881.15 in 1912 to $1,367.39 in 1922, and to $1,933.30 in 1931.

TAX LEVIES

In Connecticut collection of taxes is made by the town collector, who is elected at the annual town meeting for 1 year, unless otherwise provided by law. Any town, city, or other municipality may determine the date on which taxes are to be paid. When any community authorized to raise money by taxation lays a tax, it is required to appoint a collector thereof.

The total levies of the general property tax for the State and all subdivisions were $16,489,000 for 1912, $47,794,000 for 1922, and $75,609,776 for 1931, this being a per capita of $13.95, $33.30, and $46.39, respectively.

Of the total levies reported for 1931, $1,775,355 was for the State government; $1,151,728 for the counties ; $45,706,452 for the cities and boroughs; $1,594,210 for the school districts; $24,690,328 for the towns; $410,123 for the fire districts; $132,155 for the improvement districts; $57,248 for the metropolitan district; and $92,177 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $1.58 for 1912, $2.44 for 1922, and $2.40 for 1931.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES AND BOROUGHS, SCHOOL DISTRICTS, TOWNS, FIRE DISTRICTS, IMPROVEMENT DISTRICTS, METROPOLITAN DISTRICT, AND OTHER CIVIL DIVISIONS, BY COUNTIES: 1931

[1] For an explanation of the population used in computing per capita figures, see text discussion, p. v.
[2] Includes $4,097,103, inheritance taxes, for State purposes only.
[3] Excludes population of Greenwich borough, Fairfield County, for which no report was received.
[4] Exclusive of data for schools under the administration of cities and boroughs and towns.
[5] Not computed.
[6] Exclusive of borough of Greenwich, for which no report was received.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES AND BOROUGHS, SCHOOL DISTRICTS, TOWNS, FIRE DISTRICTS, IMPROVEMENT DISTRICTS, METROPOLITAN DISTRICT, AND OTHER CIVIL DIVISIONS, BY COUNTIES: 1931—Continued

TABLES

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, and school districts, by counties: 1932 260
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups: 1932 261
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, and school districts, by counties: 1932 262
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1932 263
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, and school districts, by counties: 1932 263
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1932 264
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, and school districts, by counties: 1932, 1922, and 1912 264
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 265
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, and school districts, by counties: 1932, 1922, and 1912 265

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Delaware relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 3 counties, the 50 cities and towns, and the 213 school districts, or a total of 267 political units that have power to levy taxes or incur debt.

The data for Delaware were compiled from reports on file in the office of the Department of Public Instruction, Dover, Del., and from reports received through correspondence.

Fiscal year.—For Delaware the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and towns, and the school districts are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Delaware on January 1, 1932, was 240,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Delaware the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $1,612,411. The State government and the cities and towns also show an excess of governmental costs over revenue receipts, but for the counties and the school districts an excess of revenue receipts over governmental costs is shown.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

[1] No general property tax levied for State purposes.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Delaware and all subdivisions of the State amounted to $23,299,475, or an average of $97.08 for each person in the State. Of this amount $12,471,532 was for the State; $3,263,735 for the counties; $7,471,659 for the cities and towns; and $92,549 for the school districts. The revenues collected include $5,310,156, general property taxes; $7,647,713 special taxes; $20,895, poll taxes; $2,657,927, licenses and permits; $158,462 special assessments; $4,692,045, subventions, donations, and pension assessments; $666,610, interest, rents, and highway privileges; $1,046,720, earnings of public service enterprises; $960,683, earnings of general departments; and $138,264, fines, forfeits, and escheats. Of the $4,692,045 classified as subventions, donations, and pension assessments, $1,037,951 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $1,494,000 in 1912, $4,315,000 in 1922, and $4,995,891 in 1932, this being an increase of 15.8 percent from 1922 to 1932, and of 234.4 percent from 1912 to 1932. Special taxes amounted to $28,000 in 1912, $2,317,000 in 1922, and $7,647,713 in 1932. Poll taxes amounted to $11,000 in 1912, $290,000 in 1922, and $9,285 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $542,000 in 1912, $908,000 in 1922, and $2,656,917 in 1932. Special assessments amounted to $44,000 in 1912, $138,000 in 1922, and $149,420 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Delaware and all subdivisions of the State for 1932 amounted to $24,911,886, or an average expenditure of $103.80 per person. Of the total amount expended, $13,913,963 was disbursed by the State government; $3,131,866 by the counties; $7,797,103 by the cities and towns; and $68,954 by the school districts. The total comprises $13,067,770 for operation and maintenance of general departments; $815,048 for operation and maintenance of public service enterprises; $1,420,314 for interest on debt; and $9,608,754 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and towns are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for the cities and towns did not admit this distribution. Payments for operation and maintenance of general departments for the government of the State and the counties are shown by departments in table 3.

For 1932 the governmental-cost payments were $1,612,411 in excess of revenue receipts. Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns having a

population of 2,500 and over increased from $2,149,000 to $13,622,709, or 533.9 percent; interest payments from $263,000 to $1,293,918, or 392 percent; and outlay payments from $619,000 to $9,595,933, or 1,450.2 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, and the school districts, by counties. The aggregate for the State and the totals for the counties and the cities and towns are comparable with prior reports on this subject.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and towns, and the school districts. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions in the county.

For 1932 the combined gross debt of Delaware and all subdivisions of the State less sinking fund assets set aside to meet such debt was $29,087,587 or an average per capita of $121.20. In 1922 the average per capita was $98.32, and in 1912, $32.98.

Of the total debt reported for 1932, $2,071,264 was for the State government; $9,635,052 for the counties; $16,072,296 for the cities and towns; and $1,308,975 for the school districts.

The gross debt of the State government, less sinking fund assets, decreased 64.5 percent from 1922 to 1932 and increased 171.5 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 62.6 percent from 1922 to 1932 and 343.1 percent from 1912 to 1932.

ASSESSED VALUATIONS

Property in Delaware is assessed by the board of assessment in the several counties. A general assessment of all taxable property is made each year for New Castle County, every 4 years for Kent County, and every 6 years for Sussex County. All real and personal property is assessed at its true value.

The assessed valuation of all property in Delaware subject to levies of the general property tax was $292,168,868 in 1932 as compared with $227,070,000 in 1922 and $93,814,000 in 1912. The per capita assessed valuation increased from $450 95 in 1912 to $994.48 in 1922, and to $1,217.37 in 1932.

TAX LEVIES

In Delaware, the receiver of taxes and county treasurer may collect the taxes or collectors of taxes may be appointed.

The total levies of the general property tax for the State and all subdivisions were $1,791,000 for 1912, $4,841,000 for 1922, and $5,915,024 for 1932, this being a per capita of $8.61, $21.20, and $24.65, respectively.

Of the total levies reported for 1932, $2,586,230 was for the county government; $3,236,245 for the cities and towns; and $92,549 for the school districts. There was no general property tax levied for State purposes for 1932. The average rate of levy per $100 of the assessed valuation was $1.91 for 1912, $2.13 for 1922, and $2.02 for 1932.

9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, special school districts, and other civil divisions, by counties: 1931, 1922, and 1912 ... 305

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Florida relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies for the State government, the 67 counties, the 254 cities, towns, and villages, the 815 special school districts, and the 360 other civil divisions (anti-mosquito district, conservancy district, drainage districts, flood-control districts, hospital district, improvement districts, inlet districts, navigation districts, port districts, reclamation district, road and bridge districts, and sanitary district), or a total of 1,497 political units that have power to levy taxes or incur debt. No reports for the cities of Fort Pierce and Kissimmee were received; the data presented relating to their indebtedness and tax levies were compiled from information available in the Bureau.

The data for Florida were compiled largely from reports on file in the offices of the State comptroller and the State superintendent of public instruction, Tallahassee, Fla., and from reports received through correspondence.

Fiscal year.—For Florida the fiscal year reported for the State governments is that ending June 30, 1932; while the statistics for the counties, the cities, towns, and villages, the special school districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Florida on January 1, 1932, was 1,519,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Florida the aggregate of revenue receipts is in excess of governmental costs. The State and its political subdivisions collected sufficient revenue to meet all governmental costs, including those for capital outlays, and had remaining $8,342,935 to apply on the reduction of debt or for other purposes. This excess of revenue receipts over governmental costs was 0.6 percent for the State government, 8.3 percent for the counties, 10.7 percent for the cities, towns, and villages, 10.7 percent for the special school districts, and 29.6 percent for the other civil divisions.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Florida and all subdivisions of the State amounted to $106,584,521, or an average of $70.17 for each person in the State. Of this amount $25,869,650 was for the State; $30,151,891 for the counties (including county schools); $35,579,736 for the cities, towns, and villages; $7,340,081 for the special school districts; and $7,643,163 for the other civil divisions. The revenues collected include $48,496,562, general property taxes; $675,041, special taxes; $419,149, poll taxes; $20,644,262, licenses and permits; $4,859,561, special assessments; $14,758,788, subventions, donations, and pension assessments; $1,237,219, interest, rents, and highway privileges; $9,986,286, earnings of public service enterprises; $4,771,362, earnings of general departments; and $736,291, fines, forfeits, and escheats. Of the $14,758,788 classified as subventions, donations, and pension assessments, $2,664,181 represents subventions by the Federal Government to the State, principally for highways.

Each county of Florida constitutes a school unit, and all special tax districts for school purposes are designated as special school districts. The county schools are under the jurisdiction of the counties and the financial transactions of these schools are included with those of the county in the tables of this report, while the data for the special school districts are shown separately.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and urban places having a population of 2,500 and over amounted to $7,360,000 in 1912, $23,307,000 in 1922, and $35,225,265 in 1931, this being an increase of 51.1 percent from 1922 to 1931, and 378.6 percent from 1912 to 1931. Special taxes amounted to $31,000 in 1912, $169,000 in 1922, and $675,041 in 1931. Poll taxes amounted to $92,000 in 1912, $124,000 in 1922, and $419,149 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $1,316,000 in 1912, $3,729,000 in 1922, and $20,503,977 in 1931. Special assessments amounted to $508,000 in 1912, $1,177,000 in 1922, and $3,061,865 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Florida and all subdivisions of the State for 1931 amounted to $98,241,586, or an average expenditure of $64.68 per person. Of the total amount expended, $25,725,035 was disbursed by the State government; $27,847,875 by the counties (including county schools); $32,137,585 by the cities, towns, and villages; $6,633,448 by the special school districts; and $5,897,643 by the other civil divisions. The total comprises $62,042,947 for operation and maintenance of general departments; $5,046,249 for operation and maintenance of public-service enterprises; $21,361,141 for interest on debt; and $9,791,249 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, towns, and villages are not shown by departments in tables 3 and 4 for the reason that for the most part, the reports secured for the cities, towns, and villages did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the special school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922

no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities, towns, and villages or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities, towns, and villages, having a population of 2,500 and over increased from $9,314,000 to $60,161,206, or 545.9 percent; interest payments, from $678,000 to $13,792,133, or 1,934.2 percent; and outlay payments from $4,211,000 to $8,311,634, or 97.4 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities, towns, and villages, the special school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1931. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the special school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1931 the combined gross debt of Florida and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $513,022,736, or an average per capita of $337.74. In 1922 the average per capita was $95.96, and in 1912, $22.72.

Of the total debt reported for 1931, $391,191 was for the State government; $93,990,553 for the counties (including county schools); $252,512,399 for the cities, towns, and villages; $51,217,000 for the special school districts; and $114,911,593 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, decreased 55 percent from 1922 to 1931 and 36.8 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 426.3 percent from 1922 to 1931 and 2,779.1 percent from 1912 to 1931.

ASSESSED VALUATIONS

All real and personal property is subject to taxation as of January 1 of each year, the assessment being made by county assessors and their assistants between that date and July 1.

Returns of all real and tangible personal property must be filed on or before April 1 of each year. Returns of real property both inside and outside of incorporated cities and towns, and of tangible personal property are required to show 50 percent of the full cash value thereof.

The assessed valuation of all property in Florida subject to levies of the general property tax was $520,453,961 in 1931 as compared with $421,449,000 in 1922 and $212,887,000 in 1912. The per capita assessed valuation increased from $257.91 in 1912 to $411.55 in 1922, and decreased to $342.63 in 1931.

TAX LEVIES

State, county, school district, and any special taxes authorized by the county commissioners are collected on one roll by county tax collectors. All taxes are due and payable on November 1 of each year.

The total levies of the general property tax for the State and all subdivisions were $8,436,000 for 1912, $32,194,000 for 1922, and $58,097,202 for 1931, this being a per capita of $10.22, $31.44, and $38.25, respectively.

Of the total levies reported for 1931, $2,538,709 was for the State government; $16,653,117 for the counties (including county schools); $25,130,556 for the cities, towns, and villages; $9,632,378 for the special school districts; $4,142,442 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $3.96 for 1912, $7.64 for 1922, and $11.16 for 1931.

[1] For an explanation of the population used in computing per capita figures, see text discussion, p. v.
[2] Includes $170,242, inheritance taxes, and $504,795, other special taxes, for State purposes only.
[3] Excludes population of Fort Pierce, St. Lucie County, and Kissimmee, Osceola County, for which no reports were received.
[4] Exclusive of county schools.
[5] Not computed.
[6] Exclusive of the city of Kissimmee, for which no report was received.
[7] No report was received for Fort Pierce, the only city in this county.

Scope of report 310
Fiscal year 310
Population 310
Summary of revenue receipts, governmental costs, debt, and general property tax levies. 1931 310

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 311
Governmental-cost payments 311
Public indebtedness 312
Assessed valuations 312
Tax levies 312

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, school districts, and other civil divisions, by counties 1931 313
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups: 1931 334
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931 336
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups: 1931 356
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931 357
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities, towns, and villages, by population groups. 1931 369
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1931, 1922, and 1912 371
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties 1931, 1922, and 1912 374
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, and school districts, by counties: 1931, 1922, and 1912 377

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Georgia relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 161 counties, the 469 cities, towns, and villages, the 1,600 school districts, and the 14 other civil divisions (drainage districts), or a total of 2,245 political units that have the power to levy taxes or incur debt.

The data for Georgia were compiled from reports on file in the office of the State department of education, Atlanta, Ga., from reports secured by local agents, and from reports received through correspondence.

Fiscal year.—For Georgia the fiscal year reported for the State government is that ending December 31, 1931, while the statistics for the counties, the cities, towns, and villages, the school districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Georgia on January 1, 1932, was 2,910,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Georgia the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $1,997,672; exclusive of capital outlays, this excess was $24,973,375.

The excess of revenue receipts over governmental costs was 6.1 percent for the counties, 5.8 percent for the cities, towns, and villages, and 0.9 percent for the school districts. For the State government, however, governmental costs were 1.4 percent in excess of revenue receipts.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

[1] Data for the schools of Atlanta and Columbus are included with data for cities, towns, and villages.
[2] Less than one tenth of 1 percent.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Georgia and all subdivisions of the State amounted to $99,829,199, or an average of $34 31 for each person in the State. Of this amount $40,369,191 was for the State; $17,853,039 for the counties; $25,851,227 for the cities, towns, and villages; $15,752,504 for the school districts; and $3,238 for the other civil divisions. The revenues collected include $41,169,604, general property taxes; $2,070,741, special taxes; $616,854, poll taxes; $24,519,657, licenses and permits; $2,084,295, special assessments; $15,801,169, subventions, donations, and pension assessments; $1,428,698, interest, rents, and highway privileges; $6,526,546, earnings of public service enterprises; $4,657,551, earnings of general departments; and $954,084, fines, forfeits, and escheats. Of the $15,801,169 classified as subventions, donations, and pension assessments, $8,079,038 represents subventions by the Federal Government to the State, principally for highways.

The schools of Atlanta and Columbus are under the jurisdiction of the city government. Therefore, the data for the schools of these cities are included with the data for the city.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities, towns, and villages having a population of 2,500 and over amounted to $16,269,000 in 1912, $31,967,000 in 1922, and $32,031,112 in 1931, this being an increase of 0 2 percent from 1922 to 1931, and of 96 9 percent from 1912 to 1931. Special taxes amounted to $525,000 in 1922 and $2,070,741 in 1931. Poll taxes amounted to $977,000 in 1912, $808,000 in 1922, and $577,898 in 1931. Licenses and permits, which include automobile license tax and the tax on gasoline, amounted to $1,852,000 in 1912, $5,549,000 in 1922, and $24,281,555 in 1931. Special assessments amounted to $1,034,000 in 1912, $1,193,000 in 1922, and $2,030,773 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Georgia and all subdivisions of the State for 1931 amounted to $97,831,527, or an average expenditure of $33.62 per person. Of the total amount expended, $40,952,503 was disbursed by the State government; $16,828,697 by the counties; $24,440,866 by the cities, towns, and villages; $15,608,778 by the school districts; and $683 by the other civil divisions. The total comprises $65,901,840 for operation and maintenance of general departments; $3,316,243 for operation and maintenance of public service enterprises; $5,637,741 for interest on debt; and $22,975,703 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, towns, and villages are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for the cities, towns, and villages did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3.

Expenditures for maintenance of schools other than schools of the State government and those for cities of 30,000 population and over may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to the States, counties, and cities, towns, and villages with a population of 2,500

and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities, towns, and villages having a population of 2,500 and over increased from $20,789,000 to $53,268,521, or 156.2 percent; interest payments, from $1,124,000 to $4,997,457, or 344.6 percent; and outlay payments from $4,396,000 to $22,060,186, or 401.8 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, and villages, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1931 the combined gross debt of Georgia and all subdivisions of the State less sinking fund assets set aside to meet such debt was $106,985,539, or an average per capita of $36.76. In 1922 the average per capita was $21.56, and in 1912, $11.89.

Of the total debt reported for 1931, $12,488,499 was for the State government; $34,670,220 for the counties; $42,844,034 for the cities, towns, and villages; $16,444,040 for the school districts; and $538,746 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 130.5 percent from 1922 to 1931 and 80.1 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 61.2 percent from 1922 to 1931 and 268.9 percent from 1912 to 1931.

ASSESSED VALUATIONS

All property subject to taxation must be given in by the taxpayers at its fair market value, and must be taxed according to its value on an assessment made each year.

Land subject to taxation is returned by the owner thereof to the receiver of tax returns of the county where the land lies. Manufacturing companies, plants, etc., except public utilities, whose real estate or plant is on or across a county line and in two or more counties, make returns in the county in which are located the main buildings. All other companies or persons taxed make returns of personal property to the county tax receivers of the respective counties where the persons reside or where the office of the company is located.

The assessed valuation of all property in Georgia subject to levies of the general property tax was $1,267,789,808 in 1931 as compared with $1,191,569,000 in 1922 and $842,358,000 in 1912. The per capita assessed valuation increased from $307.80 in 1912 to $401.25 in 1922, and to $435.67 in 1931.

TAX LEVIES

Taxes imposed on corporations required to make returns to the comptroller general are collected by the State treasurer; other State and county taxes are collected by county tax collectors, while city and town taxes are collected by the treasurer or marshal thereof.

Taxes are due when the corrected digest is received by the tax collector from the tax receiver.

The total levies of the general property tax for the State and all subdivisions were $18,414,000 for 1912, $35,673,000 for 1922, and $45,539,922 for 1931, this being a per capita of $6.73, $12.01, and $15.65, respectively.

Of the total levies reported for 1931, $6,338,865 was for the State government; $16,631,622 for the counties; $14,238,636 for the cities, towns, and villages; and $8,330,799 for the school districts. The average rate of levy per $100 of the assessed valuations was $2.19 for 1912, $2.99 for 1922, and $3.59 for 1931.

IDAHO

INTRODUCTION: Page

Scope of report ... 382
Fiscal year ... 382
Population ... 382
Summary of revenue receipts, governmental costs, debt, and general property tax levies, 1931 ... 382

DESCRIPTION OF GENERAL TABLES:

Revenue receipts ... 383
Governmental-cost payments ... 383
Public indebtedness ... 384
Assessed valuations ... 384
Tax levies ... 384

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, school districts, irrigation districts, road districts, and other civil divisions, by counties: 1931 ... 385
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups: 1931 ... 393
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, school districts, irrigation districts, road districts, and other civil divisions, by counties: 1931 ... 394
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups: 1931 ... 402
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities, towns, and villages, school districts, irrigation districts, road districts, and other civil divisions, by counties: 1931 ... 403
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities, towns, and villages, by population groups: 1931 ... 408
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities, towns, and villages, school districts, irrigation districts, road districts, and other civil divisions, by counties. 1931, 1922, and 1912 ... 409
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 ... 410
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, school districts, road districts, and other civil divisions, by counties: 1931, 1922, and 1912 ... 411

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Idaho relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 44 counties, the 143 cities, towns, and villages, the 1,390 school districts, the 35 irrigation districts, the 198 highway and special good road districts, and the 72 other civil divisions (cemetery, drainage, poison, and weed districts), or a total of 1,883 political units that have power to levy taxes or incur debt.

The data for Idaho were compiled largely from reports on file in the offices of the State Auditor, State Board of Equalization, and State Board of Education, Boise, Idaho, and from reports received through correspondence

Fiscal year.—For Idaho the fiscal year reported for the State government is that ending September 30, 1931, while the statistics for the counties, the cities, towns, and villages, the school districts, the irrigation districts, the road districts, and the other civil divisions, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Idaho on January 1, 1932, was 446,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Idaho the aggregate of revenue receipts is in excess of governmental costs. The State and its political subdivisions collected sufficient revenue to meet all governmental costs, including those for capital outlays, and had $2,215,822 remaining. This excess of revenue receipts over governmental costs was 1.8 percent for the State government, 0.9 percent for the counties, 11.6 percent for the cities, towns, and villages, 5.6 percent for the school districts, 17.5 percent for the irrigation districts, 41.3 percent for the road districts, and 9.5 percent for the other civil divisions.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLE

REVENUE RECEIPTS

The total revenues collected for the State of Idaho and all subdivisions of the State amounted to $39,233,533, or an average of $87.97 for each person in the State. Of this amount $12,350,863 was for the State; $7,824,408 for the counties; $4,124,432 for the cities, towns, and villages; $10,827,990 for the school districts; $1,648,640 for the irrigation districts; $2,277,929 for the road districts; and $179,271 for the other civil divisions. The revenues collected include $19,446,515, general property taxes; $152,282, special taxes; $4,996,251, licenses and permits; $2,831,016, special assessments; $6,863,513, subventions, donations, and pension assessments; $1,446,994, interest, rents, and highway privileges; $1,329,754, earnings of public service enterprises; $2,096,502, earnings of general departments; and $70,706, fines, forfeits, and escheats. Of the $6,863,513 classified as subventions, donations, and pension assessments, $3,565,773 represents subventions by the Federal Government to the State, principally for highways.

Schools located outside the boundaries of organized school districts are under the jurisdiction of the county, and all financial transactions for these schools are included with the data reported for the counties in this report.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities, towns, and villages having a population of 2,500 and over amounted to $4,208,000 in 1912, $10,630,000 in 1922, and $10,580,467 in 1931, this being a decrease of 0.5 percent from 1922 to 1931 and an increase of 151.4 percent from 1912 to 1931. Special taxes amounted to $98,000 in 1912, $112,000 in 1922, and $152,282 in 1931. Poll taxes amounted to $105,000 in 1912 and $11,000 in 1922. No poll taxes were reported for Idaho in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $394,000 in 1912, $1,321,000 in 1922, and $4,466,858 in 1931. Special assessments amounted to $401,000 in 1912, $732,000 in 1922, and $1,091,659 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Idaho and all subdivisions of the State for 1931 amounted to $37,017,711, or an average expenditure of $83 per person. Of the total amount expended, $12,131,612 was disbursed by the State government; $7,755,701 by the counties; $3,695,370 by the cities, towns, and villages; $10,254,984 by the school districts; $1,403,588 by the irrigation districts; $1,612,687 by the road districts; and $163,769 by the other civil divisions. The total comprises $25,451,673 for operation and maintenance of general departments; $854,728 for operation and maintenance of public service enterprises; $3,011,041 for interest on debt; and $7,700,269 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, towns, and villages are not shown by departments in tables 3 and 4 for the reason that for the most part the reports secured for the cities, towns, and villages did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, the irrigation districts, the road districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation,

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities, towns, and villages having a population of 2,500 and over increased from $6,323,000 to $14,587,085, or 130.7 percent; interest payments from $542,000 to $1,152,013, or 112.5 percent; and outlay payments from $2,004,000 to $6,811,241, or 239.9 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, and villages, the school districts, the irrigation districts, the road districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years, 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the school districts, the irrigation districts, the road districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions in the county.

For 1931 the combined gross debt of Idaho and all subdivisions of the State less sinking fund assets set aside to meet such debt was $78,449,967, or an average per capita of $175.90. In 1922 the average per capita was $136.24, and in 1912, $37.30.

Of the total debt reported for 1931, $6,961,363 was for the State government; $8,890,072 for the counties; $10,371,475 for the cities, towns, and villages; $10,195,715 for the school districts; $31,207,327 for the irrigation districts; $8,658,299 for the road districts; and $2,165,716 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, decreased 9.3 percent from 1922 to 1931 and increased 224.8 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 31.1 percent from 1922 to 1931 and 496.4 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Idaho all property is assessed by the assessor of the county in which the property is situated, one assessor being elected in each county every even numbered year. All real and personal property subject to assessment and taxation must be assessed at its full cash value for taxation for State, county, city, town, school districts, and other purposes, with reference to its value on the second Monday of January in the year in which such taxes are levied. Each taxpayer is required to make, under oath, a true and correct statement of his property, and deliver the same to the assessor, who determines the value of such property.

The assessed valuation of all property in Idaho subject to levies of the general property tax was $428,018,004 in 1931 as compared with $477,897,000 in 1922 and $167,512,000 in 1912. The per capita assessed valuation increased from $442.20 in 1912 to $1,046.88 in 1922, and decreased to $959.68 in 1931.

TAX LEVIES

In Idaho the county treasurer of each county is ex-officio tax collector. All taxes extended on the real property assessment roll are payable to the tax collector without penalty on or before the fourth Monday of November in the year in which levied and prior to said day in December next.

The total levies of the general property tax for the State and all subdivisions were $6,952,000 for 1912, $18,569,000 for 1922, and $19,109,454 for 1931, this being a per capita of $18.35, $40 68, and $42.85, respectively.

Of the total levies reported for 1931, $2,813,003 was for the State government; $6,351,497 for the county government; $2,389,647 for the cities, towns, and villages; $5,922,244 for the school districts; $1,604,949 for the road districts; and $28,114 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $4.15 for 1912, $3.89 for 1922, and $4.46 for 1931.

Scope of report 414
Fiscal year 414
Population 414
Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931 414

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 415
Governmental-cost payments 415
Public indebtedness 416
Assessed valuations 416
Tax levies 416

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, school districts, townships, and other civil divisions, by counties: 1931 417
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups. 1931 434
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, school districts, townships, and other civil divisions, by counties: 1931 440
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups: 1931 458
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities, towns, and villages, school districts, townships, and other civil divisions, by counties: 1931 462
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities, towns, and villages, by population groups: 1931 472
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities, towns, and villages, school districts, townships, and other civil divisions, by counties: 1931, 1922, and 1912 476
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 478
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, school districts, townships, and other civil divisions, by counties: 1931, 1922, and 1912 480

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Illinois relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 102 counties, the 1,129 cities, towns, and villages, the 11,993 school districts, the 1,444 townships, and the 1,673 other civil divisions (drainage, road, park, sanitary, and various other districts), or a total of 16,342 political units that have power to levy taxes or incur debt. The only data received for the cities of Champaign, West Frankfort, De Kalb, Hoopeston, Eldorado, and Zeigler related to tax levies.

The data for Illinois were compiled from reports on file in the offices of the State auditor and the State superintendent of public instruction, Springfield, Ill., and from reports secured by local agents and through correspondence.

Fiscal year.—For Illinois the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities, towns, and villages, the school districts, the townships, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Illinois on January 1, 1932, was 7,747,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Illinois the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $33,454,456 This excess of governmental costs over revenue receipts was 21.1 percent for the State government, 17 percent for the counties, 3.6 percent for the cities, towns, and villages, and 19.5 percent for the other civil divisions. For the school districts and the townships, revenue receipts were in excess of governmental costs, the percent of excess being 4.7 for the school districts and 4.3 for the townships.

Although the aggregate of governmental costs, including those for capital outlays, is more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $122,778,044.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Illinois and all subdivisions of the State amounted to $558,900,332, or an average of $72.14 for each person in the State. Of this amount $88,998,551 was for the State; $46,329,900 for the counties; $174,149,869 for the cities, towns, and villages; $186,670,498 for the school districts; $13,588,107 for the townships; and $49,163,407 for the other civil divisions. The revenues collected include $332,913,110, general property taxes; $10,738,726, special taxes; $33,183, poll taxes; $63,600,195, licenses and permits; $47,671,843, special assessments; $34,440,049, subventions, donations, and pension assessments; $17,876,498, interest, rents, and highway privileges; $24,465,826, earnings of public service enterprises; $24,903,428, earnings of general departments; and $2,257,474, fines, forfeits, and escheats. Of the $34,440,049 classified as subventions, donations, and pension assessments, $9,921,119 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and urban places having a population of 2,500 and over amounted to $67,822,000 in 1912, $97,492,000 in 1922, and $106,862,504 in 1931, this being an increase of 9.6 percent from 1922 to 1931, and 57.6 percent from 1912 to 1931. Special taxes amounted to $1,613,000 in 1912, $3,082,000 in 1922, and $10,738,726 in 1931. Poll taxes amounted to $7,000 in 1922, and $14,414 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $15,193,000 in 1912, $27,818,000 in 1922, and $63,370,983 in 1931. Special assessments amounted to $10,557,000 in 1912, $20,557,000 in 1922, and $41,993, 876 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Illinois and all subdivisions of the State for 1931 amounted to $592,354,788, or an average expenditure of $76.46 per person. Of the total amount expended, $107,804,844 was disbursed by the State government; $54,198,250 by the counties; $180,332,716 by the cities, towns, and villages; $178,252,227 by the school districts; $13,025,571 by the townships; and $58,741,180 by the other civil divisions The total comprises $360,198,758 for operation and maintenance of general departments; $15,707,156 for operation and maintenance of public service enterprises; $60,216,374 for interest on debt; and $156,232,500 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, towns, and villages are not shown by departments in tables 3 and 4, neither are those of townships in table 3, for the reason that for the most part the reports secured for these units did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities, towns, and villages or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places In the period from 1912 to 1931 the payments for operation and maintenance of general depart-

ments and public service enterprises of the State, counties, and cities, towns, and villages having a population of 2,500 and over increased from $81,952,000 to $202,434,739, or 147 percent; interest payments, from $5,576,000 to $32,805,658, or 488.3 percent; and outlay payments, from $28,042,000 to $100,417,349, or 258.1 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, and villages, the school districts, the townships, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the school districts, the townships, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1931 the combined gross debt of Illinois and all subdivisions of the State less sinking fund assets set aside to meet such debt was $1,290,544,743, or an average per capita of $166.59. In 1922 the average per capita was $54.66, and in 1912, $23.62.

Of the total debt reported for 1931, $221,403,953 was for the State government; $75,717,198 for the counties; $490,217,390 for the cities, towns, and villages; $189,154,318 for the school districts; $10,054,895 for the townships; and $303,996,989 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 1,495.1 percent from 1922 to 1931 and 9,640.6 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 205.3 percent from 1922 to 1931 and 679.2 percent from 1912 to 1931.

ASSESSED VALUATIONS

For the purpose of assessment, real and personal property is estimated at its fair market value. Assessments are made in counties under township organization by the township assessor, and in counties not under township organization, by the county treasurer. Municipalities may provide for the assessment, equalization, and collection of taxes by officers and boards performing such duties for the State, counties, and townships.

The assessed valuation of all property in Illinois subject to levies of the general property tax was $7,268,879,901 in 1931 as compared with $4,000,497,000 in 1922 and $2,343,673,000 in 1912. The per capita assessed valuation increased from $396.96 in 1912 to $600.70 in 1922, and to $938.28 in 1931.

TAX LEVIES

Taxes in counties under township organization are collected by the treasurer thereof. In counties not under township organization, the sheriff is ex-officio tax collector.

The total levies of the general property tax for the State and all subdivisions were $84,834,000 for 1912, $250,380,000 for 1922, and $391,159,259 for 1931, this being a per capita of $14.37, $37.60, and $50.49, respectively.

Of the total levies reported for 1931, $28,348,632 was for the State government; $34,187,968 for the counties; $102,614,542 for the cities, towns, and villages; $152,903,108 for the school districts; $19,697,238 for the townships; and $53,407,771 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $3.62 for 1912, $6.26 for 1922, and $5.38 for 1931.

[1] For an explanation of the population used in computing per capita figures, see text discussion, p. 1.
[2] Includes $6,534,694, inheritance taxes, and $4,204,032, other special taxes, for State purposes only.
[3] Excludes population of the cities of Champaign, Champaign County; De Kalb, De Kalb County; West Frankfort and Zeigler, Franklin County; Eldorado, Saline County; and Hoopeston, Vermilion County, for which no reports were received
[4] *Not computed.*
[5] Exclusive of the city of Champaign, for which no report was received.
[6] Exclusive of the city of De Kalb, for which no report was received.
[7] Exclusive of the cities of West Frankfort and Zeigler, for which no reports were received
[8] Exclusive of the city of Eldorado, for which no report was received.
[9] Exclusive of the city of Hoopeston, for which no report was received.

[a] Omission from table 1 of any civil division listed in tables 3 or 5 indicates no receipts reported for such division.

TABLE 2.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF CITIES, TOWNS, AND VILLAGES, BY POPULATION GROUPS: 1931

[Revenue receipts expressed in thousands]

CITY, TOWN, OR VILLAGE	Estimated population [1]	REVENUE RECEIPTS

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and towns, school districts, and townships, by counties: 1931 488
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and towns, by population groups 1931 502
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and towns, school districts, and townships, by counties: 1931 506
4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1931 521
5. Gross debt classified by character, and gross debt less sinking-fund assets of counties, cities and towns, school districts, and townships, by counties: 1931 525
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1931 533
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, school districts, and townships, by counties: 1931, 1922, and 1912 535
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 537
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, and townships, by counties: 1931, 1922, and 1912 539

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Indiana relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 92 counties, the 523 cities and towns, the 1,209 school districts, and the 1,016 townships, or a total of 2,841 political units that have power to levy taxes or incur debt.

The data for Indiana were compiled largely from reports on file at the Indiana Legislative Bureau, Indianapolis, Ind.

Fiscal year.—For Indiana the fiscal year reported for the State government is that ending September 30, 1931; for the counties, cities and towns, and townships, the fiscal year is that ending December 31, 1931; while the statistics for the school districts are for the fiscal year ending July 31, 1931.

Population.—The estimated population of Indiana on January 1, 1932, was 3,270,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Indiana the aggregate of revenue receipts is in excess of governmental costs. The State and its political subdivisions collected sufficient revenue to meet all governmental costs, including those for capital outlays, and had remaining $12,513,641 to apply on the reduction of debt or for other purposes. This excess of revenue receipts over governmental costs was 16.5 percent for the State government, 6.7 percent for the counties, 0.3 percent for the cities and towns, 1.3 percent for the school districts, and 8.1 percent for the townships.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Indiana and all subdivisions of the State amounted to $221,546,561, or an average of $67.75 for each person in the State. Of this amount $58,410,002 was for the State; $32,830,241 for the counties; $47,633,612 for cities and towns; $16,841,681 for townships; and $65,831,025 for school districts. The revenues collected include $140,317,684, general property taxes; $2,140,682, special taxes; $1,585,271, poll taxes; $27,293,898, licenses and permits; $6,579,322, special assessments; $17,018,500, subventions, donations, and pension assessments; $3,333,737, interest, rents, and highway privileges; $11,273,246, earnings of public-service enterprises; $11,409,734, earnings of general departments; $594,487, fines, forfeits, and escheats. Of the $17,018,500 classified as subventions, donations, and pension assessments, $5,772,503 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having over 2,500 population.

General property taxes of the State, counties, and urban places having a population of over 2,500 amounted to $27,906,000 in 1912, $62,394,000 in 1922, and $65,527,004 in 1931, this being an increase of 5 percent from 1922 to 1931, and 134.8 percent from 1912 to 1931. Special taxes amounted to $170,000 in 1912, $1,099,000 in 1922, and $2,140,682 in 1931. Poll taxes amounted to $386,000 in 1912, $957,000 in 1922, and $1,117,257 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $2,310,000 in 1912, $4,936,000 in 1922, and $26,848,754 in 1931. Special assessments amounted to $3,741,000 in 1912, $8,844,000 in 1922, and $6,226,470 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Indiana and its political subdivisions for 1931 amounted to $209,032,920, or an average expenditure of $63.92 per person. Of the total amount expended, $50,154,961 was disbursed by the State government; $30,770,901 by the counties; $47,513,379 by cities and towns; $65,011,769 by school districts; and $15,581,910 by townships. The total comprises $143,867,205 for operation and maintenance of general departments; $7,340,859 for operation and maintenance of public-service enterprises; $10,320,137 for interest on debt; and $47,504,719 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $12,661,777; protection to person and property, $14,276,100; health and sanitation, $4,070,493; development and conservation of natural resources by State government, $1,528,971; highways, $22,770,533; charities, hospitals, and corrections, $15,134,737; schools, $65,936,052; libraries, $1,925,308; recreation, $2,166,016; and miscellaneous, $3,397,218. Expenditures for maintenance of schools other than schools of the State government and those for cities of over 30,000 population include certain other expenditures, such as for elections, financial offices, and recreation.

For 1931 revenue receipts were $12,513,641 in excess of governmental-cost payments. Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities or other incorporated places with a population of 2,500 and over, and did not include smaller incorporated places or town-

ships or school districts In the period from 1912 to 1931 the payments for the operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns over 2,500 population increased from $31,989,000 to $83,127,026, or 159.9 percent; interest payments, from $1,235,000 to $4,866,597, or 294.1 percent; and outlay payments, from $9,019,000 to $36,444,498, or 304.1 percent

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and towns, the school districts, and the townships, by counties. The aggregate for the State and the totals for the counties are comparable with the prior reports on this subject as are the data for cities and towns and for school districts. In 1922 the township debt was included with that of the county, and for figures comparable with those of 1922 the combined debt of counties and of townships in 1931 and in 1912 should be used.

The special assessment bonds issued under the Barrett Act for cities and towns, for which the cities and towns are not responsible, are not included in this report.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, and the townships. The amounts shown opposite the name of each county represent the combined debt of the county government and all its minor civil divisions.

For 1931 the combined gross debt of Indiana and its political subdivisions, less sinking fund assets set aside to meet such debt, was $199,034,882, or an average per capita of $60.87. In 1922 the average per capita was $51.21, and in 1912, $24.41.

Of the total debt reported for 1931, $4,730,005 was for the State government; $42,140,005 for the counties; $47,455,278 for cities and towns; $40,764,029 for townships; and $63,945,565 for school districts.

The gross debt of the State government, less sinking fund assets, increased 103.4 percent from 1922 to 1931 and 250 4 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 29 1 percent from 1922 to 1931 and 194.2 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Indiana, as a general rule, property is assessed by township assessors and deputies Personal property is assessed annually between March 1 and May 15, with reference to March 1, and is assessed in the township, town, or city in which the owner is an inhabitant, with certain exceptions. Real property is assessed every four years (1928, 1932, etc.) at the time personal property is assessed, and by the same assessors. Each county assessor examines all returns of real and personal property made by the township assessors, and lists and assesses all omitted assessable property.

The assessed valuation of all property in Indiana subject to levies of the general property tax was $5,073,241,146 in 1931 as compared with $5,225,700,000 in 1922 and $1,898,307,000 in 1912. The per capita assessed valuation increased from $687.60 in 1912 to $1,751.48 in 1922, and decreased to $1,551.45 in 1931.

TAX LEVIES

The tax levies of Indiana, as presented in this report, were made on the third Monday in September 1931. All taxes on property, as well as poll taxes, are collected by the several county treasurers except that in cities of the fourth class that are not county seats, an elected city treasurer collects city taxes.

The total levies of the general property tax for the State and all subdivisions were $45,644,000 in 1912, $117,138,000 in 1922, and $138,341,947 in 1931, this being a per capita of $16.53, $39.26, and $42.31, respectively.

Of the total levies reported for 1931, $14,712,400 was for the State government; $22,638,214 for the counties; $28,017,488 for cities and towns; $54,702,548 for school districts; and $18,271,297 for townships.

The average rate of levy per $100 of the assessed valuation was $2.40 in 1912, $2.24 in 1922, and $2.73 in 1931.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES AND TOWNS, SCHOOL DISTRICTS, AND TOWNSHIPS, BY COUNTIES: 1931

4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1932 ---- 584
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, school districts, and drainage districts, by counties: 1932 ---- 587
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1932 ---- 595
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, school districts, townships, and drainage districts, by counties: 1932, 1922, and 1912 ---- 597
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties, 1932, 1922, and 1912 ---- 599
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, school districts, and townships, by counties: 1932, 1922, and 1912 ---- 601

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Iowa relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 99 counties, the 922 cities and towns, the 4,800 school districts, the 1,600 townships, and 4,000 drainage districts, or a total of 11,422 political units that have power to levy taxes or incur debt.

The data for Iowa were compiled largely from reports on file in the office of the auditor of state, Des Moines, Iowa.

Fiscal year.—For Iowa the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and towns, the school districts, the townships, and the drainage districts, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Iowa on January 1, 1932, was 2,478,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Iowa the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $8,076,048. The cities and towns, the school districts, the townships, and the drainage districts show an excess of revenue receipts over governmental costs, but for the State government and the counties an excess of governmental costs over revenue receipts is shown.

Although the aggregate of government costs, including those for capital outlays, is in excess of revenue receipts, the revenue receipts exceeded governmental costs, exclusive of capital outlays, by $54,611,614.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Iowa and all subdivisions of the State amounted to $192,059,754, or an average of $77.51 for each person in the State. Of this amount $43,027,599 was for the State; $66,843,200 for the counties; $29,093,587 for the cities and towns; $50,282,370 for the school districts; $174,981 for the townships; and $2,638,017 for the drainage districts. The revenues collected include $93,682,366, general property taxes; $936,867, special taxes; $565,925, poll taxes; $55,967,402, licenses and permits; $4,701,565, special assessments; $12,281,759, subventions, donations, and pension assessments; $1,360,770, interest, rents, and highway privileges; $8,673,252, earnings of public service enterprises; $13,361,260, earnings of general departments; and $528,588, fines, forfeits, and escheats. Of the $12,281,759 classified as subventions, donations, and pension assessments, $4,456,290 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $24,233,000 in 1912, $42,693,000 in 1922, and $46,733,191 in 1932, this being an increase of 9.5 percent from 1922 to 1932, and 92.8 percent from 1912 to 1932. Special taxes amounted to $281,000 in 1912, $894,000 in 1922, and $936,867 in 1932. Poll taxes amounted to $232,000 in 1912, $377,000 in 1922, and $484,771 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $2,663,000 in 1912, $12,979,000 in 1922, and $55,777,119 in 1932. Special assessments amounted to $3,976,000 in 1912, $8,114,000 in 1922, and $1,412,837 in 1932

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Iowa and all subdivisions of the State for 1932 amounted to $200,135,802, or an average expenditure of $80.77 per person. Of the total amount expended, $49,465,712 was disbursed by the State government; $75,369,317 by the counties; $26,739,656 by the cities and towns; $47,813,926 by the school districts; $160,688 by the townships; and $586,503 by the drainage districts. The total comprises $120,281,588 for operation and maintenance of general departments; $5,738,687 for operation and maintenance of public-service enterprises; $11,427,865 for interest on debt; and $62,687,662 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $14,992,123; protection to person and property, $5,434,560; health and sanitation, $1,890,332; development and conservation of natural resources, $2,027,479; highways, $24,245,157; charities, hospitals, and corrections, $11,325,497; schools, $54,801,192; libraries, $818,801; recreation, $1,135,313; and miscellaneous, $3,611,134. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities and towns or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and towns having a population of 2,500 and over increased from $24,885,000 to $75,869,872, or 204.9 percent; interest payments, from $1,222,000 to $7,903,530, or 546.8 percent; and outlay payments, from $10,369,000 to $61,521,435, or 493.3 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities and towns, the school districts, and the drainage districts, by counties. The aggregate for the State and the totals for the counties and the cities and towns are comparable with prior reports on this subject.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities and towns in each county is shown in table 5.

Special assessment debt for local improvement districts, although not a legal obligation of the cities and towns, is included with city or town liabilities for places having a population of less than 30,000. From the reports submitted for these places the financial transactions relating to local improvement districts could not be identified, and therefore the debt for these districts was not eliminated.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the school districts, the townships, and the drainage districts. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of Iowa and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $241,990,759, or an average per capita of $97.66. In 1922 the average per capita was $62.23, and in 1912, $15.94.

Of the total debt reported for 1932, $16,495,225 was for the State government; $121,761,980 for the counties; $42,343,567 for the cities and towns; $55,178,693 for the school districts; and $6,211,294 for the drainage districts. No outstanding indebtedness was reported for the townships for 1932 for the reason that under the law the larger operations of road and bridge building that the townships once did, have been taken over by the county.

The gross debt of the State government, less sinking-fund assets, increased 1,032.1 percent from 1922 to 1932 and 4,520.5 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 50.2 percent from 1922 to 1932 and 543 percent from 1912 to 1932.

ASSESSED VALUATIONS

In the State of Iowa an assessor is elected biennially in each city, town, and township. City and town assessors perform the same duties as the township assessors. Assessors begin listing property in January and personally affix values to all property assessed by them. Each assessor lists every person in his township and with some exceptions assesses all property therein. Property is assessed at 25 percent of its actual value and assessments are required to be completed by April 1. Personal property is listed and assessed each year in the name of the owner as of January 1. Real estate is listed and valued each odd year.

The assessed valuation of all property in Iowa subject to levies of the general property tax was $1,463,740,954 in 1932 as compared with $1,766,003,000 in 1922 and $902,093,000 in 1912. The per capita assessed valuation increased from $405.90 in 1912 to $723.49 in 1922, and decreased to $590.69 in 1932.

TAX LEVIES

In Iowa all State, county, city, and town taxes are collected by county treasurers. Taxes are due between the first Monday in January and March 1; one half, however, may be paid before March 1, and the balance before September 1.

The total levies of the general property tax for the State and all subdivisions were $36,570,000 for 1912, $105,842,000 for 1922, and $101,197,840 for 1932, this being a per capita of $16.45, $43.36, and $40.84, respectively.

Of the total levies reported for 1932, $9,108,290 was for the State government; $29,687,510 for the counties; $16,635,395 for the cities and towns; $45,571,226 for the school districts; and $195,419 for the townships. The average rate of levy per $100 of the assessed valuation was $4.05 for 1912, $5.99 for 1922, and $6.91 for 1932.

[1] Includes only the debt of school districts outside of cities and towns having a population of 2,500 and over. Debt on account of schools in cities and towns with a population of 2,500 and over is included with city or town liabilities.

[2] Not computed.

[3] Road and bridge building for which townships formerly incurred debt having been taken over by counties, the debt for such projects is included with county debt in 1932.

Population 604
Summary of revenue receipts, governmental costs, debt, and general property-tax levies: 1932 604

DESCRIPTION OF GENERAL TABLES:

Revenue receipts 605
Governmental-cost payments 605
Public indebtedness 606
Assessed valuations 606
Tax levies 606

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, school districts, townships, and other civil divisions, by counties: 1932 607
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, by population groups: 1932 621
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, school districts, townships, and other civil divisions, by counties: 1932 626
4. Governmental-cost payments and per capita total governmental-cost payments of cities, by population groups: 1932 644
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, school districts, townships, and other civil divisions, by counties. 1932 645
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, by population groups: 1932 655
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities, school districts, townships, and other civil divisions, by counties: 1932, 1922, and 1912 656
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1932, 1922, and 1912 658
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, school districts, townships, and other civil divisions, by counties: 1932, 1922, and 1912 661

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Kansas relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 105 counties, the 588 cities, the 8,500 school districts, the 1,554 townships, and the 342 other civil divisions (cemetery districts and drainage districts), or a total of 11,090 political units that have the power to levy taxes or incur debt. The only data reported for Garden City and Holton related to tax levies, and for Galena, tax levies and debt.

The data for Kansas were compiled from reports on file in the offices of the Auditor of State, State Tax Commission, and the State Superintendent of Public Instruction, Topeka, Kans., and from reports secured by local agents and through correspondence.

Fiscal year.—For Kansas the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities, the school districts, the townships, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Kansas on January 1, 1932, was 1,892,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Kansas the aggregate of revenue receipts is in excess of governmental costs, including those for capital outlays, by $2,973,951.

This excess of revenue receipts over governmental costs was 0.6 percent for the State government, 14.7 percent for the cities, 9.2 percent for the townships, and 61.3 percent for the other civil divisions. For the counties and the school districts, governmental costs exceed revenue receipts, the percent of excess being 2 for the counties and 3.1 for the schools.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Kansas and all subdivisions of the State amounted to $132,524,328, or an average of $70.04 for each person in the State. Of this amount $33,855,684 was for the State; $24,529,595 for the counties; $29,735,867 for the cities; $38,244,104 for the school districts; $5,688,368 for the townships; and $470,710 for the other civil divisions. The revenues collected include $79,027,699, general property taxes; $1,232,244, special taxes; $201,417, poll taxes; $16,006,982, licenses and permits; $5,404,499, special assessments; $9,925,455, subventions, donations, and pension assessments; $1,745,553, interest, rents, and highway privileges; $10,874,979, earnings of public service enterprises; $7,836,106, earnings of general departments; and $269,394, fines, forfeits, and escheats. Of the $9,925,455 classified as subventions, donations and pension assessments, $4,986,395 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties and the cities having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities having a population of 2,500 and over amounted to $16,395,000 in 1912, $30,546,000 in 1922, and $36,503,794 in 1932, this being an increase of 19.5 percent from 1922 to 1932, and 122.7 percent from 1912 to 1932. Special taxes amounted to $170,000 in 1912, $769,000 in 1922, and $1,232,244 in 1932. Poll taxes amounted to $69,000 in 1912, $91,000 in 1922, and $80,680 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $665,000 in 1912, $3,480,000 in 1922, and $15,957,927 in 1932. Special assessments amounted to $2,487,000 in 1912, $4,000,000 in 1922, and $4,592,820 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Kansas and all subdivisions of the State for 1932 amounted to $129,550,377, or an average expenditure of $68.47 per person. Of the total amount expended, $33,654,973 was disbursed by the State government; $25,025,525 by the counties; $25,935,161 by the cities; $39,431,607 by the school districts; $5,211,335 by the townships; and $291,776 by the other civil divisions. The total comprises $84,414,894 for operation and maintenance of general departments; $6,842,288 for operation and maintenance of public service enterprises; $7,590,463 for interest on debt; and $30,702,732 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities are not shown by departments in tables 3 and 4, neither are those for the townships in table 3, for the reason that for the most part the reports secured for these units did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3.

Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to the States, counties, and cities with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and mainte-

nance of general departments and public service enterprises of the State, counties, and cities having a population of 2,500 and over increased from $15,577,000 to $49,183,021, or 215.7 percent; interest payments, from $1,935,000 to $4,702,215, or 143 percent; and outlay payments, from $6,734,000 to $25,607,857, or 280.3 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities, the school districts, the townships, and the other civil divisions.

Table 6 presents for the individual cities, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities, the school districts, the townships, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1932 the combined gross debt of Kansas and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $156,104,613, or an average per capita of $82.51. In 1922 the average per capita was $69.16, and in 1912, $31.36.

Of the total debt reported for 1932, $21,810,291 was for the State government; $28,730,243 for the counties; $67,890,795 for the cities; $34,149,718 for the school districts; $1,203,086 for the townships; and $2,320,480 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, increased 27,861.9 percent from 1922 to 1932 and 8,875.4 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 8.8 percent from 1922 to 1932 and 155.2 percent from 1912 to 1932.

ASSESSED VALUATIONS

The State tax commission is empowered to exercise general supervision over the administration of the assessment and tax laws of the State, over township and city assessors, over boards of county commissioners, county boards of equalization, and all other boards of levy and assessment.

In counties having a population of over 65,000 a county assessor is elected for a term of 2 years; in counties having a population of 65,000 or less, the county clerk is ex-officio county assessor, but an assessor may be elected if the voters so approve.

Real property is assessed as of March 1, 1930, and as of March 1 every fourth year thereafter; in the intervening years the assessment may be changed to meet the changes in improvements. Personal property is listed and taxed each year in the township, school district, or city in which the same was located on March 1.

The assessed valuation of all property in Kansas subject to levies of the general property tax was $3,666,275,513 in 1932 as compared with $3,554,813,000 in 1922 and $2,746,900,000 in 1912. The per capita assessed valuation increased from $1,629.61 in 1912 to $1,991.06 in 1922, and decreased to $1,937.78 in 1932.

TAX LEVIES

The county treasurer of each county is collector of all taxes therein, and is elected for a term of 2 years.

All taxes are due on November 1 of each year, a lien for such attaching to the real property on this date, and continuing until such taxes, penalties, charges, and interest have been paid.

The total levies of the general property tax for the State and all subdivisions were $27,895,000 for 1912, $69,331,000 for 1922, and $80,362,231 for 1932, this being a per capita of $16.55, $38.83, and $42.47, respectively.

Of the total levies reported for 1932, $7,254,667 was for the State; $18,869,636 for the counties; $13,585,907 for the cities; $34,716,608 for the school districts; $5,600,354 for the townships; and $335,059 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $1.02 for 1912, $1.95 for 1922, and $2.19 for 1932.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES, SCHOOL DISTRICTS, TOWNSHIPS, AND OTHER CIVIL DIVISIONS, BY COUNTIES: 1932

TABLES:

1 Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1932 669
2 Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups 1932 685
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1932 688
4 Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups: 1932 704
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties: 1932 705
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, towns, and villages, by population groups: 1932 714
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities, towns, and villages, school districts, and other civil divisions, by counties 1932, 1922, and 1912 715
8 Total and per capita assessed valuation of all property subject to the general property tax, by counties. 1932, 1922, and 1912 717
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, and school districts, by counties: 1932, 1922, and 1912 720

73203—34——43

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Kentucky relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 120 counties, the 369 cities, towns, and villages, the 365 school districts, and the 73 other civil divisions (drainage districts), or a total of 928 political units that have power to levy taxes or incur debt.

The data for Kentucky were compiled largely from reports on file in the offices of State tax commission and the State superintendent of public instruction, Frankfort, Ky., and from reports secured by local agents and through correspondence.

Fiscal year.—For Kentucky the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities, towns, and villages, the school districts, and the other civil divisions, are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Kentucky on January 1, 1932, was 2,635,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Kentucky the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $2,997,806. This excess of governmental costs over revenue receipts was 3.1 percent for the State government and 10.4 percent for the cities, towns, and villages. For the counties, the school districts, and the other civil divisions, revenue receipts were in excess of governmental costs, the percent of excess being 1.5 for the counties, 3.6 for the school districts, and 72.2 for the other civil divisions. Although the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $19,264,933.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES	
	Total	Percent of total	Total	Percent of total	Total	Percent of total	Total	Percent of total

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Kentucky and all subdivisions of the State amounted to $92,112,159, or an average of $34.96 for each person in the State. Of this amount $36,930,115 was for the State; $11,863,658 for the counties; $25,778,660 for the cities, towns, and villages; $17,431,284 for the school districts; and $108,442 for the other civil divisions. The revenues collected include $48,157,310, general property taxes; $1,216,850, special taxes; $688,332, poll taxes; $16,954,850, licenses and permits; $4,674,669, special assessments; $10,866,257, subventions, donations, and pension assessments; $872,977, interest, rents, and highway privileges; $3,797,008, earnings of public service enterprises; $4,299,658, earnings of general departments; and $584,248, fines, forfeits, and escheats. Of the $10,866,257 classified as subventions, donations, and pension assessments, $3,674,046 represents subventions by the Federal Government to the State, principally for highways. The schools of the cities of Louisville, Lexington, Paducah, Ashland, and Paris are administered by the city government. Therefore, the data for the schools of these cities are included with the data for cities, towns, and villages.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

The general property taxes of the State, the counties, and the cities, towns, and villages having a population of 2,500 and over amounted to $15,734,000 in 1912, $29,427,000 in 1922, and $36,355,580 in 1932, this being an increase of 23.5 percent from 1922 to 1932, and 131.1 percent from 1912 to 1932. Special taxes amounted to $462,000 in 1912, $682,000 in 1922, and $1,216,850 in 1932. Poll taxes amounted to $594,000 in 1912, $570,000 in 1922, and $422,216 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $2,807,000 in 1912, $5,528,000 in 1922, and $16,845,362 in 1932. Special assessments amounted to $683,000 in 1912, $744,000 in 1922, and $4,470,712 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Kentucky and all subdivisions of the State for 1932 amounted to $95,109,965, or an average expenditure of $36.09 per person. Of the total amount expended, $38,086,662 was disbursed by the State government; $11,687,971 by the counties; $28,452,502 by the cities, towns, and villages; $16,819,863 by the school districts; and $62,967 by the other civil divisions. The total comprises $65,500,272 for operation and maintenance of general departments; $1,988,305 for operation and maintenance of public service enterprises; $5,358,649 for interest on debt; and $22,262,739 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, towns, and villages are not shown by departments in tables 3 and 4, for the reason that for the most part the reports secured for the cities, towns, and villages did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, the school districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Kentucky were limited to the State, counties, and cities, towns, and villages with a

population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities, towns, and villages having a population of 2,500 and over increased from $21,659,000 to $51,752,488, or 138.9 percent; interest payments, from $1,395,000 to $4,784,387, or 243 percent; and outlay payments, from $4,395,000 to $20,589,778, or 368.5 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities, towns, and villages, the school districts, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt, less sinking fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, the school districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of Kentucky and all subdivisions of the State less sinking fund assets set aside to meet such debt was $113,417,913, or an average per capita of $43.04. In 1922 the average per capita was $20.68, and in 1912, $12.85.

Of the total debt reported for 1932, $16,223,691 was for the State government; $33,202,412 for the counties; $53,205,173 for the cities, towns, and villages; $10,096,016 for the school districts; and $690,621 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 109.5 percent from 1922 to 1932 and 265.3 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 127.2 percent from 1922 to 1932 and 279.8 percent from 1912 to 1932.

ASSESSED VALUATIONS

For the purpose of assessment, real and personal property is assessed at its *fair cash value*—estimated at the price it would bring at a fair voluntary sale. Assessments are made by the county tax commissioner and his deputies. The return and listing of property for taxation commences on the first day of July and must be completed by October 31.

The assessed valuation of all property in Kentucky subject to levies of the general property tax was $3,059,586,369 in 1932 as compared with $2,404,147,000 in 1922 and $1,031,174,000 in 1912. The per capita assessed valuation increased from $441.37 in 1912 to $984.20 in 1922, and to $1,161.13 in 1932.

TAX LEVIES

State, county, and school district taxes are collected by the sheriff. In cities, collection is made by the tax receiver or collector, treasurer, marshal or sheriff. Taxes become due and payable on or after March 1 and become delinquent on December 1.

The total levies of the general property tax for the State and all subdivisions were $17,669,000 for 1912, $37,322,000 for 1922, and $51,062,800 for 1932, this being a per capita of $7.56, $15.28, and $19.38, respectively.

Of the total levies reported for 1932, $10,964,088 was for the State government; $11,303,961 for the counties; $16,758,792 for the cities, towns, and villages; and $12,035,959 for the school districts. The average rate of levy per $100 of the assessed valuation was $1.71 for 1912, $1.55 for 1922, and $1.67 for 1932.

1. Revenue receipts and per capita total revenue receipts, and estimated population of parishes, cities, towns, and villages, school districts, drainage districts, levee districts, road districts, and other civil divisions, by parishes 1931 729
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups. 1931 742
3. Governmental-cost payments and per capita total governmental-cost payments of parishes, cities, towns, and villages, school districts, drainage districts, levee districts, road districts, and other civil divisions, by parishes: 1931 744
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups: 1931 756
5. Gross debt classified by character, and gross debt less sinking fund assets, of parishes, cities, towns, and villages, school districts, drainage districts, levee districts, road districts, and other civil divisions, by parishes: 1931 757
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities, towns, and villages, by population groups: 1931 764
7. Total and per capita of the combined gross debt less sinking fund assets of parishes, cities, towns, and villages, school districts, drainage districts, levee districts, road districts, and other civil divisions, by parishes: 1931, 1922, and 1912 765
8. Total and per capita assessed valuation of all property subject to the general property tax, by parishes: 1931, 1922, and 1912 766
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, parishes, cities, towns, and villages, school districts, drainage districts, levee districts, road districts, and other civil divisions, by parishes: 1931, 1922, and 1912 768

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Louisiana relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies for the State government, the 64 parishes, the 195 cities, towns, and villages, the 470 school districts, the 150 drainage districts, the 20 levee districts, the 450 road districts, and the 5 other civil divisions (navigation district, port of New Orleans, and waterworks districts), or a total of 1,355 political units that have power to levy taxes or incur debt.

The data for Louisiana were compiled largely from reports on file in the offices of the supervisor of public accounts, and Louisiana Tax Commission, Baton Rouge, La., and from reports received through correspondence.

Fiscal year.—For Louisiana the fiscal year reported for the State government is that ending December 31, 1931, while the statistics for the parishes, the cities, towns, and villages, the school districts, the drainage districts, the levee districts, the road districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Louisiana on January 1, 1932, was 2,132,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Louisiana the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts. The excess of governmental costs over revenue receipts was 141.9 percent for the State government, 3.2 percent for the parishes, 13.9 percent for the cities, towns, and villages, 8.7 percent for the school districts, 82.9 percent for the levee districts, and 51.7 percent for the other civil divisions. For the drainage districts and the road districts, revenue receipts were in excess of governmental costs, the percent of excess being 0.6 for the drainage districts and 29.1 for the road districts.

Although the aggregate of governmental costs, including those for capital outlays, is $59,415,352 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $13,861,621.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

[1] Data for the schools of the city of New Orleans are included with data for cities, towns, and villages.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Louisiana and all subdivisions of the State amounted to $103,351,877, or an average of $48.48 for each person in the State. Of this amount $34,590,584 was for the State; $6,185,555 for the parishes; $31,978,403 for the cities, towns, and villages; $13,996,571 for the school districts; $1,042,283 for the drainage districts; $3,812,951 for the levee districts; $6,439,760 for the road districts; and $5,305,770 for the other civil divisions. The revenues collected include $50,704,690, general property taxes; $555,963, special taxes; $433,447, poll taxes; $21,191,096, licenses and permits; $3,230,210, special assessments; $10,716,822, subventions, donations, and pension assessments; $2,045,513, interest, rents, and highway privileges; $10,125,084, earnings of public-service enterprises; $3,986,429, earnings of general departments; and $362,623, fines, forfeits, and escheats. Of the $10,716,822 classified as subventions, donations, and pension assessments, $4,569,458 represents subventions by the Federal Government to the State, principally for highways. Receipts and payments for the schools of New Orleans form part of the financial transactions of the city government. Therefore, the data for the schools of this city are included with the data for the cities, towns, and villages, in the general tables of this report.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were parishes, and cities, towns, and villages having a population of 2,500 and over.

The general property taxes of the State, the parishes, and the cities, towns, and villages having a population of 2,500 and over amounted to $14,516,000 in 1912, $34,635,000 in 1922, and $31,155,914 in 1931, this being a decrease of 10 percent from 1922 to 1931, and an increase of 114.6 percent from 1912 to 1931. Special taxes amounted to $207,000 in 1912, $343,000 in 1922, and $555,963 in 1931. Poll taxes amounted to $235,000 in 1912, $146,000 in 1922, and $122,265 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $2,581,000 in 1912, $7,128,000 in 1922, and $19,426,245 in 1931. Special assessments amounted to $1,035,000 in 1912, $1,575,000 in 1922, and $2,485,136 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Louisiana and all subdivisions of the State for 1931 amounted to $162,767,229, or an average expenditure of $76.34 per person. Of the total amount expended, $83,687,304 was disbursed by the State government; $6,383,518 by the parishes; $36,433,361 by the cities, towns, and villages; $15,215,223 by the school districts; $1,036,172 by the drainage districts; $6,972,585 by the levee districts; $4,989,244 by the road districts; and $8,049,822 by the other civil divisions. The total comprises $64,997,289 for operation and maintenance of general departments; $8,216,569 for operation and maintenance of public service enterprises; $16,276,398 for interest on debt; and $73,276,973 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, towns, and villages are not shown by departments in tables 3 and 4 (except for New Orleans which is shown in table 3) for the reason that for the most part, the reports secured for the cities, towns, and villages did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the parishes, the school districts, the drainage districts, the levee districts, the road districts, and the other civil divisions are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government and the schools of New Orleans may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Louisiana were limited to State, parishes, and cities, towns, and villages with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public service enterprises of the State, parishes, and cities, towns, and villages having a population of 2,500 and over increased from $17,092,000 to $53,822,904, or 214.9 percent; interest payments, from $2,606,000 to $7,887,087, or 202.7 percent; and outlay payments, from $4,607,000 to $63,864,499, or 1,286.2 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the parishes, the cities, towns, and villages, the school districts, the drainage districts, the levee districts, the road districts, and the other civil divisions, by parishes.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1931. The aggregate debt of the cities, towns, and villages in each parish is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the parishes, the cities, towns, and villages, the school districts, the drainage districts, the levee districts, the road districts, and the other civil divisions. The amounts shown opposite the name of each parish represent the combined debt of the parish government and all the minor civil divisions of the parish.

For 1931 the combined gross debt of Louisiana and all subdivisions of the State less sinking fund assets set aside to meet such debt was $360,410,495, or an average per capita of $169.05. In 1922 the average per capita was $69.18, and in 1912, $42.97.

Of the total debt reported for 1931, $83,742,822 was for the State government; $11,120,924 for the parishes; $109,726,576 for the cities, towns, and villages; $25,360,046 for the school districts; $12,968,708 for the drainage districts; $26,458,765 for the levee districts; $46,770,466 for the road districts; and $44,262,188 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 464.7 percent from 1922 to 1931 and 518.2 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 146 8 percent from 1922 to 1931 and 350.2 percent from 1912 to 1931.

ASSESSED VALUATIONS

In all parishes except Orleans, property is assessed by the parish assessor, who is elected for a term of 4 years. Orleans Parish has a board of 7 assessors, 1 being elected from each municipal district of the city of New Orleans every 4 years.

All real estate and personal property subject to taxation are estimated by the assessors at actual cash value. Each taxpayer is required to file a sworn list of his property with the assessor on or before April 1 of each year, or else he is estopped from contesting the correctness of the assessment list filed by the assessor. In Orleans Parish each taxpayer is required to make return of his property within 20 days after receipt of the list for that purpose.

The assessed valuation of all property in Louisiana subject to levies of the general property tax was $1,666,140,457 in 1931 as compared with $1,561,581,000 in 1922 and $550,518,000 in 1912. The per capita assessed valuation increased from $315.36 in 1912 to $850.95 in 1922, and decreased to $781.49 in 1931.

TAX LEVIES

In all the parishes except Orleans, taxes are collected by the parish sheriff, who is ex-officio tax collector. In Orleans Parish there are 6 tax collectors appointed by the governor and 1 State tax collector who is elected. All taxes are due on or before December 31 of the year in which assessed. If not paid by that date, they bear interest at the rate of 10 percent per annum.

The total levies of the general property tax for the State and all subdivisions were $14,432,000 for 1912, $41,562,000 for 1922, and $55,052,540 for 1931, this being a per capita of $8.27, $22.65, and $25.82, respectively.

Of the total levies reported for 1931, $9,593,182 was for the State government; $5,131,511 for the parishes; $19,765,762 for the cities, towns, and villages; $10,168,919 for the school districts; $536,074 for the drainage districts; $3,612,146 for the levee districts; $5,889,493 for the road districts; and $355,453 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $2.62 for 1912, $2.66 for 1922, and $3.30 for 1931.

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities and villages, towns and plantations, and other civil divisions, by counties: 1932 774
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities and villages, by population groups: 1932 776
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities and villages, towns and plantations, and other civil divisions, by counties: 1932 777
4. Governmental-cost payments and per capita total governmental-cost payments of cities and villages, by population groups: 1932 780
5. Gross debt classified by character, and gross debt less sinking fund assets, of counties, cities and villages, towns and plantations, and other civil divisions, by counties: 1932 781
6. Gross debt classified by character, and gross debt less sinking fund assets, total and per capita, of cities and villages, by population groups: 1932 782
7. Total and per capita of the combined gross debt less sinking fund assets, of counties, cities and villages, towns and plantations, and other civil divisions, by counties: 1932, 1922, and 1912 783
8. Total and per capita assessed valuation of all property subject to the general property tax by counties: 1932, 1922, and 1912 783

Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and villages, towns and plantations, and other civil divisions, by counties: 1932, 1922, and 1912 784

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Maine relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 16 counties, the 50 cities and villages, the 498 towns and plantations, and the 7 other civil divisions (pier site district, bridge district, sewer districts, and water districts), or a total of 572 political units that have power to levy taxes or incur debt.

The data for Maine were compiled largely from reports on file in the State Library, Augusta, Maine.

Fiscal year.—For Maine the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and villages, the towns and plantations, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Maine on January 1, 1932, was 800,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Maine the aggregate of governmental costs, including those for capital outlays, is in excess of the revenue receipts. This excess of governmental costs over revenue receipts was 16.6 percent for the State government, 5.4 percent for the counties, 7.2 percent for the cities and villages, and 7.8 percent for the towns.

Although the aggregate of governmental costs, including those for capital outlays, is $6,769,359 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $11,821,796.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Maine and all subdivisions of the State amounted to $56,959,858, or an average of $71.20 for each person in the State. Of this amount $22,971,645 was for the State; $1,960,985 for the counties; $12,171,075 for the cities and villages; $19,043,612 for the towns and plantations; and $812,541 for the other civil divisions. The revenues collected include $28,896,483, general property taxes; $2,465,663, special taxes; $608,321, poll taxes; $10,584,210, licenses and permits; $116,620, special assessments; $7,670,795, subventions, donations, and pension assessments; $664,155, interest, rents, and highway privileges; $1,729,730, earnings of public-service enterprises; $4,012,815, earnings of general departments; and $211,066, fines, forfeits, and escheats. Of the $7,670,795 classified as subventions, donations, and pension assessments $2,693,234 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, cities and villages, and towns having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities and villages having a population of 2,500 and over amounted to $6,221,000 in 1912, $11,749,000 in 1922, and $15,507,251 in 1932, this being an increase of 32 percent from 1922 to 1932, and of 149.3 percent from 1912 to 1932. Special taxes amounted to $275,000 in 1912, $1,184,000 in 1922, and $2,297,507 in 1932. Poll taxes amounted to $147,000 in 1912, $215,000 in 1922, and $224,180 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $2,201,000 in 1912, $4,551,000 in 1922, and $10,565,809 in 1932. Special assessments amounted to $153,000 in 1912, $183,000 in 1922, and $101,501 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Maine and all subdivisions of the State for 1932 amounted to $63,729,217, or an average expenditure of $79.66 per person. Of the total amount expended, $26,784,981 was disbursed by the State government; $2,066,207 by the counties; $13,041,439 by the cities and villages; $20,528,750 by the towns and plantations; and $1,307,840 by the other civil divisions. The total comprises $41,073,675 for operation and maintenance of general departments; $1,055,883 for operation and maintenance of public service enterprises; $3,008,504 for interest on debt; and $18,591,155 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $3,390,918; protection to person and property, $3,776,101; health and sanitation, $1,288,339; development and conservation of natural resources by State government, $902,468; highways, $10,390,402; charities, hospitals, and corrections, $5,388,309; schools, $14,082,630; libraries, $347,090; recreation, $238,667; and miscellaneous, $1,268,751. Expenditures for maintenance of schools other than schools of the State government and those for cities of over 30,000 population may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Maine were limited to the State, counties, and cities and villages and towns with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public service enterprises of the State, counties, and cities and villages of 2,500 population and over increased from $8,722,000 to $26,321,592, or 201.8 percent; interest payments, from $748,000 to $2,033,201, or 171.8 percent; and outlay payments, from $1,542,000 to $13,261,951, or 760 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and villages, the towns and plantations, and the other civil divisions, by counties.

Table 6 presents for the individual cities and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking fund assets, for the year 1932. The aggregate debt of the cities and villages in each county is shown in Table 5.

In Table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and villages, the towns and plantations, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions of the county.

For 1932 the combined gross debt of Maine and all subdivisions of the State less sinking fund assets set aside to meet such debt was $64,529,415, or an average per capita of $80.66. In 1922 the average per capita was $54.90, and in 1912, $30.08.

Of the total debt reported for 1932, $27,219,610 was for the State government; $2,712,948 for the counties; $16,227,275 for the cities and villages; $10,437,293 for the towns and plantations; and $7,932,289 for the other civil divisions.

The gross debt of the State government, less sinking fund assets, increased 110.9 percent from 1922 to 1932 and 2,068.9 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 26.3 percent from 1922 to 1932 and 73.2 percent from 1912 to 1932.

ASSESSED VALUATIONS

Property in Maine is assessed by town assessors, 3, 5, or 7 in number, as the town may determine. Any town may elect a board of assessors for a term of 3 years, one assessor being elected each year. Organized plantations choose three assessors annually. Electors living on islands adjacent to the mainland along the coast of the State, but not included within any town, and all electors living in other unorganized places, may make returns to the assessors of any adjacent town, who thereupon assess the State and county taxes. These taxes are collected by the same officers and in the same manner as if such electors were inhabitants of such town. In towns which have not chosen assessors, the selectmen make assessments.

The assessed valuation of all property in Maine subject to levies of the general property tax was $756,860,383 in 1932, as compared with $637,403,000 in 1922 and $416,891,000 in 1912. The per capita assessed valuation increased from $550.03 in 1912 to $824.27 in 1922, and to $946.08 in 1932.

TAX LEVIES

In Maine the treasurers and collectors of taxes of the cities and towns are chosen annually, and may be one and the same person, unless otherwise provided by the charter. When no collector or constable is chosen by the town to collect taxes, such duties are performed by the sheriff of the county.

All State taxes in incorporated places are collected by the collectors or constables of the several towns, and are paid over to the town treasurers. County taxes are collected in the same manner and turned over to the county treasurers.

Collectors of taxes in plantations are required to collect and transmit the State and county taxes to the State and county treasurers by November 1 after commitment of the warrants therefor. On or before September 1 of each year the State treasurer issues his warrant to each town treasurer requiring him to transmit and pay the town's proportion of the State tax.

The total levies of the general property tax for the State and all subdivisions were $8,987,000 for 1912, $22,295,000 for 1922, and $31,307,009 for 1932, this being a per capita of $11.86, $28.83, and $39.13, respectively.

Of the total levies reported for 1932, $5,481,517 was for the State government; $1,639,556 for the counties; $9,806,318 for the cities and villages; $14,259,821 for the towns and plantations; and $119,797 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $2.16 for 1912, $3.50 for 1922, and $4.14 for 1932.

TABLE 1.—REVENUE RECEIPTS AND PER CAPITA TOTAL REVENUE RECEIPTS, AND ESTIMATED POPULATION OF COUNTIES, CITIES AN VILLAGES, TOWNS AND PLANTATIONS, AND OTHER CIVIL DIVISIONS, BY COUNTIES: 1932

[Revenue receipts expressed in thousands]

COUNTY AND OTHER CIVIL DIVISIONS	Estimated population [1]	REVENUE RECEIPTS

TABLES:

1. Revenue receipts and per capita total revenue receipts, and estimated population of counties, cities, towns, and villages, and other civil divisions, by counties: 1931 789
2. Revenue receipts and per capita total revenue receipts, and estimated population of cities, towns, and villages, by population groups: 1931 792
3. Governmental-cost payments and per capita total governmental-cost payments of counties, cities, towns, and villages, and other civil divisions, by counties: 1931 793
4. Governmental-cost payments and per capita total governmental-cost payments of cities, towns, and villages, by population groups: 1931 796
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities, towns, and villages, and other civil divisions, by counties: 1931 797
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities, towns, and villages, by population groups: 1931 799
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities, towns, and villages, and other civil divisions, by counties: 1931, 1922, and 1912 800
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 801
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities, towns, and villages, and other civil divisions, by counties: 1931, 1922, and 1912 802

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Maryland relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 23 counties, the 148 cities, towns, and villages, and the 23 other civil divisions (fire protection districts, Maryland—National Capital Park and Planning Commission, sanitary commissions, special assessment districts, special taxing districts, and suburban district), or a total of 195 political units that have power to levy taxes or incur debt.

The data for Maryland were compiled largely from reports received through correspondence.

Fiscal year.—For Maryland the fiscal year reported for the State government is that ending September 30, 1931, while the statistics for the counties, the cities, towns, and villages, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Maryland on January 1, 1932, was 1,650,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Maryland the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts by $12,270,980. This excess of governmental costs over revenue receipts was 0.3 percent for the State government, 6.9 percent for the counties, 19.8 percent for the cities, towns, and villages, and 55.4 percent for the other civil divisions.

Although the aggregate of governmental costs, including capital outlays, is in excess of revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $17,831,156.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Maryland and all subdivisions of the State amounted to $104,598,518, or an average of $63.39 for each person in the State. Of this amount $33,573,514 was for the State; $18,672,813 for the counties; $50,976,760 for the cities, towns, and villages; and $1,375,431 for the other civil divisions. The revenues collected include $53,999,476, general property taxes; $5,468,093, special taxes; $17,368,717, licenses and permits; $3,213,495, special assessments; $8,125,220, subventions, donations, and pension assessments; $3,111,891, interest, rents, and highway privileges; $6,881,966, earnings of public-service enterprises; $5,973,102, earnings of general departments; and $456,558, fines, forfeits, and escheats. Of the $8,125,220 classified as subventions, donations, and pension assessments, $2,611,707 represents subventions by the Federal Government to the State, principally for highways.

The schools of Baltimore are under the control of the city government; the county schools, however, are under the jurisdiction of the various counties.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities, towns, and villages having a population of 2,500 and over.

General property taxes of the State, the counties, and the cities, towns, and villages having a population of 2,500 and over amounted to $15,157,000 in 1912, $36,031,000 in 1922, and $53,303,021 in 1931, this being an increase of 47.9 percent from 1922 to 1931 and 251.7 percent from 1912 to 1931. Special taxes amounted to $725,000 in 1912, $2,944,000 in 1922, and $5,457,192 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $3,373,000 in 1912, $6,509,000 in 1922, and $17,347,998 in 1931. Special assessments amounted to $163,000 in 1912, $929,000 in 1922, and $2,602,209 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Maryland and all subdivisions of the State for 1931 amounted to $116,869,498, or an average expenditure of $70.83 per person. Of the total amount expended, $33,684,183 was disbursed by the State government; $19,961,486 by the counties; $61,086,938 by the cities, towns, and villages; and $2,136,891 by the other civil divisions. The total comprises $71,564,585 for operation and maintenance of general departments; $3,117,268 for operation and maintenance of public-service enterprises; $12,085,509 for interest on debt; and $30,102,136 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities, towns, and villages are not shown by departments in tables 3 and 4 (except Baltimore City, in table 3) for the reason that for the most part the reports secured for the cities, towns, and villages did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State and the counties are shown by departments in table 3.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities, towns, and villages or other incorporated places with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities, towns, and villages having a population of 2,500 and over increased from $21,071,000 to $73,718,191, or 249.9 percent; interest payments, from $3,000,000 to $11,497,496, or 283.2 percent; and outlays payments, from $8,056,000 to $28,888,148, or 258.6 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities, towns, and villages, and the other civil divisions, by counties.

Table 6 presents for the individual cities, towns, and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1931. The aggregate debt of the cities, towns, and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities, towns, and villages, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all minor civil divisions in the county.

For 1931 the combined gross debt of Maryland and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $261,167,767, or an average per capita of $158.28. In 1922 the average per capita was $81.43, and in 1912, $44.76.

Of the total debt reported for 1931, $31,197,913 was for the State government; $39,886,516 for the counties; $180,313,244 for the cities, towns, and villages; and $9,770,094 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, increased 41 percent from 1922 to 1931 and 325.4 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 132.7 percent from 1922 to 1931 and 340.5 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Maryland, all property within the State, both real and personal, except that specifically exempted, is subject to taxation for State, county, and city purposes. Any county or city may adopt the calendar year as its taxable year, and thereafter all State and county taxes in such county and all city taxes in such city are levied for the calendar year as of the first day of January. All State, county, and city taxes levied upon assessments made by the State tax commission are also levied for the calendar year as of the first day of January. The assessors, who are appointed for the counties by the county commissioners and for Baltimore city by the appeal tax court of the city value all property, tangible and intangible, and make return thereof to said bodies for the purpose of assessment.

The assessed valuation of all property in Maryland subject to levies of the general property tax was $2,761,586,579 in 1931 as compared with $1,685,496,000 in 1922 and $1,235,458,000 in 1912. The per capita assessed valuation increased from $928.77 in 1912 to $1,134.69 in 1922, and to $1,673.69 in 1931.

TAX LEVIES

In Maryland taxes are collected by the county collectors. Taxes in the city of Baltimore are collected by the city tax collector. County and city taxes so collected are paid by the collectors to the county commissioners, or to the mayor and council of the city of Baltimore, as the case may be.

The total levies of the general property tax for the State and all subdivisions were $16,360,000 for 1912, $40,026,000 for 1922, and $55,157,554 for 1931, this being a per capita of $12.30, $26.95, and $33.43, respectively.

Of the total levies reported for 1931 $6,275,199 was for the State government; $14,331,625 for the county government; $34,258,911 for the cities, towns, and villages; and $291,819 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $1.32 for 1912, $2.37 for 1922, and $2 for 1931.

4. Governmental-cost payments and per capita total governmental-cost payments of cities and towns, by population groups: 1931 818
5. Gross debt classified by character, and gross debt less sinking-fund assets, of counties, cities and towns, fire and water districts, and other civil divisions, by counties. 1931 824
6. Gross debt classified by character, and gross debt less sinking-fund assets, total and per capita, of cities and towns, by population groups: 1931 825
7. Total and per capita of the combined gross debt less sinking-fund assets, of counties, cities and towns, fire and water districts, and other civil divisions, by counties: 1931, 1922, and 1912 828
8. Total and per capita assessed valuation of all property subject to the general property tax, by counties: 1931, 1922, and 1912 828
9. Total levies of the general property tax and average tax rate per $100 of assessed valuation of State, counties, cities and towns, fire and water districts, and other civil divisions, by counties: 1931, 1922, and 1912 829

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Massachusetts relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies, for the State government, the 14 counties, the 355 cities and towns, the 48 fire and water districts, and the 4 other civil divisions (electric light districts, sewer districts, and reclamation districts), or a total of 422 political units that have power to levy taxes or incur debt.

The data for Massachusetts were compiled largely from reports on file in the Department of Corporations and Taxation, Boston, Mass.

Fiscal year.—For Massachusetts the fiscal year reported for the State government is that ending November 30, 1931, while the statistics for the counties, the cities and towns, the fire and water districts, and the other civil divisions are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—Although Massachusetts is entirely urban, there is, with but one exception, a difference between the estimated population of the cities and towns of a county and the estimated population of the county, as shown in table 1. This is due to the fact that the population of certain cities and towns was estimated as of a different date from that of the county.

The estimated population of Massachusetts on January 1, 1932, was 4,290,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1931.—The following statement discloses that for Massachusetts the aggregate of governmental costs, including those for capital outlays, is in excess of revenue receipts. The State government, the counties, and the cities and towns show an excess of governmental costs over revenue receipts, but for the fire and water districts and the other civil divisions an excess of revenue receipts over governmental costs is shown.

Although the aggregate of governmental costs, including those for capital outlays, is $29,134,496 more than the revenue receipts, the revenue receipts exceed governmental costs, exclusive of capital outlays, by $73,307,946.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DIVISION OF GOVERNMENT	REVENUE RECEIPTS		GOVERNMENTAL COSTS		GROSS DEBT LESS SINKING-FUND ASSETS		GENERAL PROPERTY TAX LEVIES

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Massachusetts and all subdivisions of the State amounted to $384,018,342, or an average of $89.51 for each person in the State. Of this amount $74,020,060 was for the State; $11,395,056 for the counties; $297,911,550 for the cities and towns; $665,931 for the fire and water districts; and $25,745 for the other civil divisions. The revenues collected include $219,913,145, general property taxes; $58,740,028, special taxes; $2,593,009, poll taxes; $27,194,003, licenses and permits; $4,321,588, special assessments; $13,940,406, subventions, donations, and pension assessments; $12,821,297, interest, rents, and highway privileges; $26,979,487, earnings of public service enterprises; $16,229,403, earnings of general departments; and $1,285,976, fines, forfeits, and escheats. Of the $13,940,406 classified as subventions, donations, and pension assessments, $4,608,617 represents subventions by the Federal Government to the State, principally for highways.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and towns having a population of 2,500 and over.

For 1912 and 1922 receipts from poll taxes are shown separately for the cities and towns of the various population groups; for 1931, however, poll taxes are shown separately for the group of cities of 30,000 population and over, but are included with general property taxes for all cities and towns having less than 30,000 population. The combined total of general property taxes and poll taxes of the State, the counties, and the cities and towns having a population of 2,500 and over amounted to $70,435,000 in 1912, $154,435,000 in 1922, and $214,318,528 in 1931, this being an increase of 38.8 percent from 1922 to 1931, and 204.3 percent from 1912 to 1931. Special taxes amounted to $12,279,000 in 1912, $38,678,000 in 1922, and $57,286,646 in 1931. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $7,127,000 in 1912, $8,584,000 in 1922, and $27,165,250 in 1931. Special assessments amounted to $7,113,000 in 1912, $3,961,000 in 1922, and $4,293,902 in 1931.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Massachusetts and all subdivisions of the State for 1931 amounted to $413,152,838, or an average expenditure of $96.31 per person. Of the total amount expended, $74,058,631 was disbursed by the State government; $11,654,744 by the counties; $326,829,670 by the cities and towns; $586,869 by the fire and water districts; and $22,924 by other civil divisions. The total comprises $272,263,354 for operation and maintenance of general departments; $17,713,020 for operation and maintenance of public-service enterprises; $20,734,022 for interest on debt; and $102,442,442 for outlays or permanent improvements.

The payments for operation and maintenance of general departments are distributed as follows: General government, $23,267,192; protection to person and property, $42,028,943; health and sanitation, $22,095,971; development and conservation of natural resources by the State government, $1,850,663; highways, $26,441,084; charities, hospitals, and corrections, $49,123,142; schools, $81,607,734; libraries, $4,133,039; recreation, $7,517,326; and miscellaneous, $14,198,260. Expenditures for maintenance of schools other than schools of the State government and those for cities of over 30,000 population may include certain other expenditures such as for elections, financial offices, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data were limited to States, counties, and cities and towns with a population of 2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1931 the payments for operation and maintenance of general departments and public-service enter-

prises of the State, counties, and cities and towns having a population of 2,500 and over increased from $87,159,000 to $278,719,464, or 219.8 percent; interest payments, from $16,439,000 to $20,331,070, or 23.7 percent; and outlay payments, from $20,940,000 to $97,618,401, or 366.2 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking-fund assets of the State government, and of the counties, the cities and towns, the fire and water districts, and the other civil divisions, by counties.

The total debt reported for the State government in tables 5 and 7 includes an amount classified by the State as contingent. This debt was contracted in the interest of certain cities and towns in the Metropolitan district from which the State exacts payments for interest and sinking-fund accumulations.

Table 6 presents for the individual cities and towns, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1931. The aggregate debt of the cities and towns in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1931, 1922, and 1912, covering the gross debt less sinking-fund assets—total and per capita—of the government of the State, the counties, the cities and towns, the fire and water districts, and the other civil divisions. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1931 the combined gross debt of Massachusetts and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $436,599,547, or an average per capita of $101.77. In 1922 the average per capita was $82.30, and in 1912, $75.28.

Of the total debt reported for 1931, $62,855,962 was for the State government; $9,773,972 for the counties; $360,738,750 for the cities and towns; $1,477,123 for the fire and water districts; and $1,753,740 for the other civil divisions.

The gross debt of the State government, less sinking-fund assets, decreased 18.4 percent from 1922 to 1931 and 21 percent from 1912 to 1931. Similar debt for all minor civil divisions combined increased 47.8 percent from 1922 to 1931 and 99.2 percent from 1912 to 1931.

ASSESSED VALUATIONS

In Massachusetts all real property situated within the Commonwealth, and all personal property of the inhabitants of the Commonwealth, unless expressly exempted, are subject to taxation. Real estate is assessed in the town where it lies, and taxable personal property, within or without the Commonwealth, is assessed to the owner in the town where he is an inhabitant on April 1, except as otherwise provided. Taxes for State, county, town, and for fire and water and other districts are assessed by the several town assessors.

The assessed valuation of all property in Massachusetts subject to levies of the general property tax was $7,442,794,863 in 1931 as compared with $5,677,715,000 in 1922 and $4,803,079,000 in 1912. The per capita assessed valuation increased from $1,353.47 in 1912 to $1,428.96 in 1922, and to $1,734.92 in 1931.

TAX LEVIES

In Massachusetts taxes are payable in each civil division in which assessed not later than October 15 of each year, unless an earlier date has been fixed.

Each town has one or more collectors of taxes and 3 or 5 assessors. Each assessor in every city or town except Boston is elected or appointed to hold office for 3 years, or until his successor is duly elected or appointed. Each city has one or more collectors of taxes and 3, 5, 7, or 9 assessors. Any town may authorize its treasurer to collect taxes.

The total levies of the general property tax for the State and all subdivisions were $82,566,000 for 1912, $156,285,000 for 1922, and $231,212,331 for 1931, this being a per capita of $23.27, $39.33, and $53.90, respectively.

Of the total levies reported for 1931, $7,500,000 was for the State government; $13,061,704 for the counties; $210,322,018 for the cities and towns; $311,323 for the fire and water districts; and $17,286 for the other civil divisions. The average rate of levy per $100 of the assessed valuation was $1.72 for 1912, $2.75 for 1922, and $3.11 for 1931.

INTRODUCTION

Scope of report.—The statistics herein presented for the State of Michigan relate to the revenue receipts, governmental-cost payments, public debt, assessed valuations, and tax levies for the State government, the 83 counties, the 472 cities and villages, the 7,069 school districts, and the 1,268 townships, or a total of 8,893 political units that have power to levy taxes or incur debt.

The data for Michigan were compiled largely from reports on file in the offices of the auditor general's department and the department of public instruction, Lansing, Mich., and from reports received through correspondence.

Fiscal year.—For Michigan the fiscal year reported for the State government is that ending June 30, 1932, while the statistics for the counties, the cities and villages, the school districts, and the townships are those that were available for a fiscal year most nearly conforming to that of the State.

Population.—The estimated population of Michigan on January 1, 1932, was 4,962,000.

Summary of revenue receipts, governmental costs, debt, and general property tax levies: 1932.—The following statement discloses that for Michigan the aggregate of revenue receipts is in excess of governmental costs by $12,969,352. The excess of revenue receipts over governmental costs was 0.1 percent for the State government, 20 percent for the counties, 1.4 percent for the school districts, and 1.5 percent for the townships. For the cities and villages, however, governmental costs were 1.2 percent in excess of revenue receipts.

Receipts from the issue of debt obligations are not classed as revenue receipts, or payments on account of debt obligations as governmental-cost payments.

DESCRIPTION OF GENERAL TABLES

REVENUE RECEIPTS

The total revenues collected for the State of Michigan and all subdivisions of the State amounted to $443,965,421, or an average of $89.47 for each person in the State. Of this amount $102,262,634 was for the State; $82,045,933 for the counties; $169,249,047 for the cities and villages; $80,889,845 for the school districts; and $9,517,962 for the townships. The revenues collected include $244,261,092, general property taxes; $13,745,922, special taxes; $40,114,678, licenses and permits; $27,455,306, special assessments; $48,442,712, subventions, donations, and pension assessments; $6,434,131, interest, rents, and highway privileges; $36,472,520, earnings of public service enterprises; $25,556,002, earnings of general departments; and $1,483,058, fines, forfeits, and escheats. Of the $48,442,712 classified as subventions, donations, and pension assessments, $7,464,937 represents subventions by the Federal Government to the State, principally for highways.

The Covert road and the drain districts of Michigan are under county supervision, and the data for these districts are included with the data for the counties.

The schools of Detroit are under the jurisdiction of the city government. Therefore, the data for these schools are included with the data for the city.

In the survey for 1922 data on revenues were limited to general property taxes, special taxes, poll taxes, licenses and permits, and special assessments. In the survey for 1912 the only subdivisions of the State that were included were counties, and cities and villages having a population of 2,500 and over.

The general property taxes of the State, the counties, and the cities and villages having a population of 2,500 and over amounted to $36,412,000 in 1912, $113,220,000 in 1922, and $179,625,505 in 1932, this being an increase of 58.7 percent from 1922 to 1932, and 393.3 percent from 1912 to 1932. Special taxes amounted to $889,000 in 1912, $9,625,000 in 1922, and $13,737,764 in 1932. Licenses and permits, which include the automobile license tax and the tax on gasoline, amounted to $3,140,000 in 1912, $13,734,000 in 1922, and $40,068,705 in 1932. Special assessments amounted to $3,071,000 in 1912, $10,699,000 in 1922, and $27,078,792 in 1932.

GOVERNMENTAL-COST PAYMENTS

The public expenditures of Michigan and all subdivisions of the State for 1932 amounted to $430,996,069, or an average expenditure of $86.86 per person. Of the total amount expended, $102,187,813 was disbursed by the State government; $68,392,628 by the counties; $171,283,284 by the cities and villages; $79,756,541 by the school districts; and $9,375,803 by the townships. The total comprises $290,937,055 for operation and maintenance of general departments; $23,704,315 for operation and maintenance of public-service enterprises; $41,217,663 for interest on debt; and $75,137,036 for outlays or permanent improvements.

Payments for operation and maintenance of general departments for the government of the cities and villages are not shown by departments in tables 3 and 4, neither are those of townships in table 3, for the reason that for the most part the reports secured for these units did not admit of this distribution. Payments for operation and maintenance of general departments for the government of the State, the counties, and the school districts are shown by departments in table 3. Expenditures for maintenance of schools other than schools of the State government and those for the city of Detroit may include certain other expenditures such as for elections, financial officers, and recreation.

Similar but less comprehensive censuses were taken in 1912 and 1922, the law authorizing that these compilations be made decennially. In the survey for 1922 no data relating to expenditures were included, and in 1912 such data for Michigan were limited to the State, counties, and cities and villages with a population of

2,500 and over. Data for the incorporated places reported included data for the schools of such incorporated places. In the period from 1912 to 1932 the payments for operation and maintenance of general departments and public-service enterprises of the State, counties, and cities and villages having a population of 2,500 and over increased from $40,611,000 to $239,595,998, or 490 percent; interest payments, from $1,900,000 to $34,748,797, or 1,728.9 percent; and outlay payments, from $13,681,000 to $63,202,004, or 362 percent.

PUBLIC INDEBTEDNESS

Table 5 presents the gross debt classified by character of obligation and the total and per capita gross debt less sinking fund assets of the State government, and of the counties, the cities and villages, the school districts, and the townships, by counties.

Table 6 presents for the individual cities and villages, by population groups, the gross debt classified by character, and the total and per capita gross debt less sinking-fund assets, for the year 1932. The aggregate debt of the cities and villages in each county is shown in table 5.

In table 7 are shown comparative figures for the years 1932, 1922, and 1912, covering the gross debt less sinking fund assets—total and per capita—of the government of the State, the counties, the cities and villages, the school districts, and the townships. The amounts shown opposite the name of each county represent the combined debt of the county government and all the minor civil divisions of the county.

For 1932 the combined gross debt of Michigan and all subdivisions of the State less sinking-fund assets set aside to meet such debt was $782,305,782, or an average per capita of $157.66. In 1922 the average per capita was $94.09, and in 1912, $20.43.

Of the total debt reported for 1932, $60,581,991 was for the State government; $76,917,943 for the counties; $522,978,231 for the cities and villages; $115,704,645 for the school districts; and $6,122,972 for the townships.

The gross debt of the State government, less sinking-fund assets, increased 18.9 percent from 1922 to 1932 and 754.6 percent from 1912 to 1932. Similar debt for all minor civil divisions combined increased 132.2 percent from 1922 to 1932 and 1,264.1 percent from 1912 to 1932.

ASSESSED VALUATIONS

In Michigan, an annual assessment is made of all property in the State liable to taxation, in the several townships, cities, and villages, by the supervisors of the several townships and wards, or in cities and villages where provision is made in the acts of incorporation or charter for some other assessing officer, then by such assessing officer. Real property is assessed in the township or place where situated to both the owner and occupant; while personal property, unless otherwise provided, is assessed to the owner in the township in which he is an inhabitant on the second Monday of April of the year in which the assessment is made.

The assessed valuation of all property in Michigan subject to levies of the general property tax was $8,262,954,179 in 1932 as compared with $5,929,615,000 in 1922 and $2,317,562,000 in 1912. The per capita assessed valuation increased from $789.19 in 1912 to $1,542.08 in 1922, and to $1,665.25 in 1932.

TAX LEVIES

In general, all taxes are collected by the several township and city treasurers or collectors before March 1 of each year. City treasurers are collectors of State and county taxes within their respective cities, and all other taxes and assessments levied therein.

The total levies of the general property tax for the State and all subdivisions were $47,998,000 for 1912, $168,797,000 for 1922, and $266,717,413 for 1932, this being a per capita of $16.34, $43.90, and $53.75, respectively.

Of the total levies reported for 1932, $42,213,648 was for the State government; $52,940,240 for the counties; $107,863,629 for the cities and villages; $59,270,837 for the school districts; and $4,429,059 for the townships. The average rate of levy per $100 of the assessed valuation was $2.07 for 1912, $2.85 for 1922, and $3.23 for 1932.
